Index to Notes to Interim Consolidated Financial Statements

1. Business Operations

Fairfax India Holdings Corporation (“the company” or “Fairfax India”) is an investment holding company whose objective is to achieve long term capital appreciation, while preserving capital, by investing in public and private equity securities and debt instruments in India and Indian businesses or other businesses with customers, suppliers or business primarily conducted in, or dependent on, India (“Indian Investments”). The company makes all or substantially all of its investments either directly or through one of its wholly-owned subsidiaries, FIH Mauritius Investments Ltd (“FIH Mauritius”) and FIH Private Investments Ltd (“FIH Private”).

Fairfax Financial Holdings Limited ("Fairfax") is Fairfax India's ultimate parent and acts as its administrator. Fairfax is a holding company which, through its subsidiaries, is principally engaged in property and casualty insurance and reinsurance and the associated investment management. Hamblin Watsa Investment Counsel Ltd. (the “Portfolio Advisor”), a wholly-owned subsidiary of Fairfax and registered portfolio manager in the province of Ontario, is the portfolio advisor of the company and its consolidated subsidiaries, responsible to source and advise with respect to all investments.

At June 30, 2018 Fairfax, through its subsidiaries, owned 30,000,000 multiple voting shares and 22,178,422 subordinate voting shares of Fairfax India. Fairfax India’s subordinate voting shares trade on the Toronto Stock Exchange ("TSX") under the symbol FIH.U. The multiple voting shares of the company are not traded. At June 30, 2018 Fairfax's holdings of multiple and subordinate voting share represented 93.7% of the voting rights and 33.6% of the equity interest in Fairfax India (December 31, 2017 - 93.6% and 30.2% respectively). See note 12 for additional details on the increase in Fairfax's equity interest in the company.

The holding company is federally incorporated and is domiciled in Ontario, Canada. The principal office of the company, Fairfax and the Portfolio Advisor is located at 95 Wellington Street West, Suite 800, Toronto, Ontario M5J 2N7.

2. Basis of Presentation

The company's interim consolidated financial statements for the three and six months ended June 30, 2018 have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Accounting Standard 34 *Interim Financial Reporting*. Accordingly, certain information and disclosures normally included in the annual consolidated financial statements prepared in accordance with IFRS as issued by the IASB have been omitted or condensed. These interim consolidated financial statements should be read in conjunction with the company’s annual consolidated financial statements for the year ended December 31, 2017, which have been prepared in accordance with IFRS as issued by the IASB effective as at December 31, 2017.

These interim consolidated financial statements were approved for issue by the company’s Board of Directors on August 2, 2018.

3. Summary of Significant Accounting Policies

The principal accounting policies applied to the preparation of these interim consolidated financial statements are as set out in the company's annual consolidated financial statements for the year ended December 31, 2017, prepared in accordance with IFRS as issued by the IASB. Those policies and methods of computation have been consistently applied to all periods presented except as described below.

Total cash and investments

Total cash and investments include cash and cash equivalents, restricted cash, short term investments, bonds and common stocks. Management determines the appropriate classifications of investments at their acquisition date.

Classification

Short term investments, bonds and common stocks are classified as fair value through profit or loss (‘‘FVTPL’’). The company manages these investments on a fair value basis, using fair value information to assess investment performance and to make investment decisions. The company has not elected to irrevocably designate any of its investments at fair value through other comprehensive income. The company classifies its short term investments and bonds based on both the company’s business model for managing those financial assets and their contractual cash flow characteristics. While the contractual cash flows of certain of the company’s short term investments and bonds are solely principal and interest, those investments are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to the company’s business model of maximizing total investment return on a fair value basis.

Recognition and measurement

The company recognizes purchases and sales of investments on the trade date, which is the date on which the company commits to purchase or sell the asset. Transactions pending settlement are reflected on the consolidated balance sheets in other assets or in accounts payable and accrued liabilities. The company recognizes cash and investments at fair value upon initial recognition.

Subsequent to initial recognition, investments classified as FVTPL are measured at fair value with changes in fair value reported in the consolidated statements of earnings as income comprised of interest, dividends, net realized gains (losses) on investments and net change in unrealized gains (losses) on investments. Interest represents interest income on short term investments and bonds (except for Sanmar bonds where interest income is included in its fair value measurement (see note 5)) calculated using the effective interest method, net of investment expenses. Dividends represents dividends received on holdings of common stocks. The sum of interest income, net realized gains (losses) on investments and net change in unrealized gains (losses) on investments is equal to their total change in fair value for the reporting period.

Interest, dividends, net realized gains (losses) on investments and net change in unrealized gains (losses) on investments are reported as operating activities in the consolidated statements of cash flows.

Transaction costs related to investments classified as FVTPL are expensed as incurred. An investment is derecognized when the rights to receive cash flows from the investment have expired or have been transferred and when the company has transferred substantially all the risks and rewards of ownership.

Short term investments are debt instruments with maturity dates between three months and twelve months when purchased.

Bonds are debt instruments with maturity dates greater than twelve months when purchased.

Term loans

Term loans are recognized initially at fair value, net of incremental and directly attributable transaction costs, and subsequently measured at amortized cost. Interest expense on term loans are recognized in the consolidated statements of earnings using the effective interest method. Term loans are derecognized when extinguished, with any gain or loss on extinguishment recognized in other expenses in the consolidated statements of earnings.

Other financial assets and financial liabilities

All other financial assets and financial liabilities, primarily comprised of interest receivable, income taxes refundable, other assets, accounts payable and accrued liabilities, payable for rights issue, and payable to related parties, are initially recognized at fair value and subsequently measured at amortized cost which approximates fair value. Under the amortized cost method, financial assets and liabilities reflect the amount required to be received or paid and discounted when appropriate, at the contract's effective interest rate.

Net realized gains (losses) on investments, and Net change in unrealized gains (losses) on investments

Net realized gains (losses) arising on the disposition of investments and net change in unrealized gains (losses) arising on the re-measurement of investments at fair value (inclusive of interest income from Sanmar bonds) are included in net realized gains (losses) on investments and net change in unrealized gains (losses) on investments in the consolidated statements of earnings, respectively.

Interest and dividend income

Interest income is recognized on an accrual basis using the effective interest method and includes bank interest and interest from investments in debt instruments, except for Sanmar bonds where interest income is included in its fair value measurement (see note 5). Calculation of a debt instrument’s effective interest rate does not consider expected credit losses and requires estimates of future cash flows considering all contractual terms of the financial instrument including the stated interest rate, discount or premium, and any origination or structuring fees. Interest receivable is shown separately on the consolidated balance sheets based on the debt instruments' stated rates of interest. Dividends from equity investments are recognized when the company's right to receive payment is established.

New accounting pronouncements adopted in 2018

IFRS 9 Financial Instruments ("IFRS 9")
The complete version of IFRS 9 supersedes the 2010 version of IFRS 9 ("IFRS 9 (2010)") previously applied by the company. IFRS 9 includes requirements for the classification and measurement of financial assets and financial liabilities, an expected credit loss model for financial assets measured at amortized cost or fair value through other comprehensive income, and new hedge accounting guidance. The company has determined that its classifications of financial assets and financial liabilities remain unchanged under IFRS 9 from those of IFRS 9 (2010). Equity investments continue to be mandatorily classified as FVTPL, debt investments continue to be classified as FVTPL due to the company's business model for the management of those debt investments, and financial liabilities continue to be classified as amortized cost. IFRS 9 was adopted effective January 1, 2018 in accordance with its retrospective transition provisions without restatement of comparative periods. The company has determined that adoption of IFRS 9 did not have an impact on the consolidated financial statements.

New accounting pronouncement issued but not yet effective

Conceptual Framework for Financial Reporting ("Conceptual Framework")

On March 29, 2018 the IASB published a revised Conceptual Framework that includes revised definitions of an asset and a liability as well as new guidance on measurement, derecognition, presentation and disclosure. The revised Conceptual Framework does not constitute an accounting pronouncement and will not result in any immediate change to IFRS, but the IASB and IFRS Interpretations Committee will use it in setting future standards. The revised Conceptual Framework is effective for the company beginning on January 1, 2020 and will apply when developing an accounting policy for an issue not addressed by IFRS. The company is currently evaluating the impact of the revised Conceptual Framework on its consolidated financial statements and does not expect to adopt it in advance of its effective date.

4. Critical Accounting Estimates and Judgments

In the preparation of the company's interim consolidated financial statements, management has made a number of critical accounting estimates and judgments in the preparation of notes 5, 6 and 10 in a manner consistent with those as described in the company's annual consolidated financial statements for the year ended December 31, 2017.

5. Indian Investments

Throughout this interim consolidated financial statements for the three and six months ended June 30, 2018, the term "Indian Investments" refers to deployed capital invested in Public and Private Indian Investments as disclosed within this note.

Summary of Changes in the Fair Value of the Company's Indian Investments

A summary of changes in the fair value of the company's Public and Private Indian Investments for the second quarters of 2018 and 2017 were as follows:

	Second quarter												
	Public Indian Investments					Private Indian Investments (1)							
	Common stocks					Bonds	Common stocks						
	IIFL	Fairchem	5paisa	Other	Total	Sanmar	BIAL	NCML	Sanmar	Saurashtra	NSE	Total	Total Indian Investments

(1) At June 30, 2018 all Private Indian Investments were classified as Level 3 in the fair value hierarchy except for the company's investment in NSE. See note 6 for additional details on the transfer of the company's investment in NSE from Level 3 to Level 2 during the first quarter of 2018.

(2) For all Private Indian Investments classified as Level 3 in the fair value hierarchy net change in unrealized gains (losses) on investments related to unrealized gains (losses) on investments held at June 30, 2018 and June 30, 2017.

(3) The merger of Fairchem and Privi resulted in the reallocation of the investment in Privi from Private Indian Investments to the Public Indian Investment in Fairchem.

Public Indian Investments

The fair values of Fairfax India's Public Indian Investments, whose shares are listed on both the BSE (formerly known as Bombay Stock Exchange Limited) and the National Stock Exchange of India ("NSE of India"), are determined using the bid prices of those investments (without adjustments or discounts) at the balance sheet date.

Investment in IIFL Holdings Limited

IIFL Holdings Limited ("IIFL") is a publicly traded, diversified financial services holding company located in Mumbai, India with principal lines of business in wealth management, capital markets and other activities (comprised of retail investment brokerage, institutional equities, investment banking and financial products distribution) and a non-banking finance company.

In December 2015 and February 2017 the company acquired 84,641,445 common shares of IIFL (representing a 26.9% equity interest) for aggregate cash consideration of $276,734 (approximately 18.5 billion Indian rupees). In October 2017 IIFL spun-off its wholly-owned subsidiary 5Paisa Digital Undertaking through the formation of a new public company, 5paisa Capital Limited ("5paisa") in a non-cash transaction. The distribution of 5paisa to IIFL shareholders was characterized as a return of capital which resulted in Fairfax India recording the initial cost of its investment in 5paisa at its fair value of $19,758 with a corresponding amount recorded as a reduction of the cost of the company's investment in IIFL. Additional details on the 5paisa spin-off transaction are disclosed later in note 5.

On January 31, 2018 IIFL's board of directors approved a draft plan to reorganize IIFL into three listed entities (the "reorganization") consisting of IIFL Finance (currently known as IIFL Holdings Limited comprised of the loans and mortgages businesses), IIFL Wealth (comprised of the wealth, asset management and alternative investment fund businesses) and IIFL Securities (comprised of all other IIFL businesses including investment brokerage, distribution and investment banking). Shareholders of IIFL will receive seven common shares of IIFL Securities and one common share of IIFL Wealth for every seven IIFL shares held. IIFL Holdings Limited will be renamed IIFL Finance, and shares of IIFL Finance, IIFL Wealth and IIFL Securities will be listed on the BSE and NSE of India. The reorganization is anticipated to be completed in late 2018 to early 2019, subject to customary closing conditions and applicable regulatory approvals.

At June 30, 2018 the fair value of the company's investment in IIFL was $827,698 (December 31, 2017 - $888,485) comprised of 84,641,445 common shares representing a 26.5% equity interest (December 31, 2017 - 26.6%). The changes in fair value of the company's investment in IIFL for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Investment in Fairchem Speciality Limited

Fairchem Speciality Limited ("Fairchem") is a publicly traded, specialty chemical manufacturer located in Ahmedabad, India. Fairchem manufactures oleochemicals used in the paints, inks and adhesives industries, as well as intermediate nutraceutical and health products.

Privi Organics Limited ("Privi"), a wholly-owned subsidiary of Fairchem, is a supplier of aroma chemicals to the fragrance industry and is located in Mumbai, India.

In February 2016 Fairfax India acquired a 44.7% equity interest in Fairchem for cash consideration of $19,409 (approximately 1.3 billion Indian rupees) and in August 2016 acquired a 50.8% equity interest in Privi for cash consideration of $54,975 (approximately 3.7 billion Indian rupees). In March 2017 Fairchem and Privi were merged with the surviving entity continuing as Fairchem (the "Merger") and with no changes to management of the underlying companies.

At June 30, 2018 the fair value of the company's investment in Fairchem was $101,895 comprised of 18,307,318 common shares (fair value of $97,943) and 738,760 compulsorily convertible preference shares ("CCPS") (fair value of $3,952) representing a 48.8% equity interest on a fully diluted basis (or a 48.7% equity interest excluding the impact of the CCPS). At December 31, 2017 the fair value of the company's investment in Fairchem was $149,200 comprised of 18,307,318 common shares (fair value of $143,413) and 738,760 CCPS (fair value of $5,787) representing a 48.8% equity interest on a fully diluted basis (or a 48.7% equity interest excluding the impact of the CCPS). The changes in fair value of the company's investment in Fairchem for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Investment in 5paisa Capital Limited

5paisa Capital Limited ("5paisa"), located in Mumbai, India, is a publicly traded, online financial services provider with a do-it-yourself based investment brokerage model where the customer can execute investment transactions for a low brokerage fee. 5paisa is engaged in providing an online technology platform through Internet terminals and mobile applications for trading securities on the BSE and the NSE of India.

In October 2017 IIFL spun-off its wholly-owned subsidiary 5Paisa Digital Undertaking through the formation of a new public company, 5paisa Capital Limited, listed on the BSE and the NSE of India effective November 16, 2017. This non-cash transaction resulted in Fairfax India receiving one new common share of 5paisa for every 25 common shares of IIFL held for a total of 3,385,657 common shares of 5paisa with a fair value of $19,758. The distribution of 5paisa to IIFL shareholders was characterized as a return of capital which resulted in Fairfax India recording the initial cost of its investment in 5paisa at its fair value of $19,758 with a corresponding amount recorded as a reduction of the cost of the company's investment in IIFL.

At June 30, 2018 the fair value of the company's investment in 5paisa was $15,813 (December 31, 2017 - $19,958) comprised of 3,385,657 common shares representing a 26.6% equity interest (December 31, 2017 - 26.6%). The changes in fair value of the company's investment in 5paisa for the second quarter and first six months of 2018 are presented in the tables disclosed earlier in note 5.

Private Indian Investments

The fair values of Fairfax India's Private Indian Investments cannot be derived from an active market and accordingly, are determined using industry accepted valuation techniques and models, excluding NSE, where the fair value at June 30, 2018 was based on a recent third party transaction. Market observable inputs are used where possible, with unobservable inputs used where necessary. Use of unobservable inputs can involve significant judgment and may materially affect the reported fair value of these investments.

Investment in Bangalore International Airport Limited

Bangalore International Airport Limited ("BIAL") is a private company located in Bengaluru, India. BIAL, under a concession agreement with the Government of India until the year 2038 (with the right to extend the agreement for an additional 30 years), has the exclusive rights to carry out the development, design, financing, construction, commissioning, maintenance, operation and management of the Kempegowda International Airport Bengaluru (“KIAB”) through a public-private partnership. KIAB is the first greenfield airport in India built through a public-private partnership.

During 2017 Fairfax India had invested aggregate cash consideration of $585,591 (approximately 38.1 billion Indian rupees) (inclusive of $74,202 of costs incurred, approximately 4.8 billion Indian rupees) for a 48.0% equity interest in BIAL through the following transactions: (i) March 24, 2017 the company acquired a 38.0% equity interest in BIAL for cash consideration of $385,498 (approximately 25.2 billion Indian rupees); and (ii) July 13, 2017 acquired an additional 10.0% equity interest in BIAL for cash consideration of $200,093 (12.9 billion Indian rupees) which the company determined included $74,202 of consideration in excess of the fair value of those additional shares acquired.

On May 16, 2018 Fairfax India acquired an additional 6.0% equity interest in BIAL from Siemens Project Ventures GmbH ("Siemens") for cash consideration of $67,391 (approximately 4.6 billion Indian rupees). Upon completion of this transaction, the company had invested aggregate cash consideration of $652,982 (approximately 42.7 billion Indian rupees) (inclusive of $74,202 of costs incurred, approximately 4.8 billion Indian rupees) for a 54.0% equity interest in BIAL.

At June 30, 2018 the company estimated the fair value of its investment in BIAL using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 10.7% to 12.3% and a long term growth rate of 3.0% (December 31, 2017 - 10.4% to 11.7% and 3.0%, respectively) for BIAL's two business units and the estimated fair value of the monetizable leasehold land (approximately 460 acres) based on third party valuations with an assumed 20.0% discount factor (December 31, 2017 - 20.0%) for the leasehold nature of the asset. Free cash flow projections were based on EBITDA estimates derived from financial information for BIAL's two business units prepared in the first quarter of 2018 by BIAL's management. Discount rates were based on the company's assessment of risk premiums to the appropriate risk-free rate of the economic environment in which BIAL operates. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in BIAL was $643,783 (December 31, 2017 - $608,288). The changes in fair value of the company's investment in BIAL for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Investment in National Collateral Management Services Limited

National Collateral Management Services Limited ("NCML") is a private agricultural commodities storage company headquartered in Gurugram, India, operating in the agriculture value chain and offering end-to-end solutions in grain procurement, testing, storage and collateral management. NCML's wholly-owned subsidiary, NCML Finance Private Ltd, focuses on rural and agri-business finance.

In the third quarter of 2015 and August 2017 Fairfax India acquired an 89.5% equity interest in NCML for cash consideration of $174,318 (approximately 11.3 billion Indian rupees). The payable for rights issue at December 31, 2017 related to Fairfax India's participation in NCML's rights issue that was settled in January 2018.

At June 30, 2018 the company estimated the fair value of its investment in NCML using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 12.1% to 20.9% and long term growth rates ranging from 2.4% to 6.0% (December 31, 2017 - 12.0% to 19.9% and 2.4% to 6.0%, respectively). Free cash flow projections were based on EBITDA estimates derived from financial information for NCML's business units prepared in the second quarter of 2018 by NCML's management. Discount rates were based on the company's assessment of risk premiums to the appropriate risk-free rate of the economic environment in which NCML operates. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in NCML was $170,049 (December 31, 2017 - $179,054). The changes in fair value of the company's investment in NCML for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Investment in Sanmar Chemicals Group

Sanmar Chemicals Group ("Sanmar"), a private company, is one of the largest suspension polyvinyl chloride ("PVC") manufacturers in India, headquartered in Chennai, India with an operational presence in India and Egypt. Sanmar also manufactures caustic soda, chloromethanes, refrigerant gases, industrial salt and specialty chemical intermediates.

In April 2016 Fairfax India invested $250,000 in Sanmar comprised of $1,000 in common shares (representing a 30.0% equity interest) and $249,000 in bonds, and in September 2016 invested an additional $50,000 in Sanmar bonds. Both tranches of Sanmar bonds mature on April 22, 2023 (7 years from the date of issuance of the first tranche), subject to earlier redemption at the option of Sanmar under certain circumstances. In lieu of cash, the coupon payment on the bond is payable in kind in the form of additional Sanmar bonds over the life of the financial instrument. A redemption premium may also be payable in kind to the company.

Sanmar Common Shares

At June 30, 2018 the company estimated the fair value of its investment in Sanmar common shares using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 15.8% to 22.7% and long term growth rates ranging from 2.0% to 4.0% (December 31, 2017 - 15.2% to 19.5% and 2.0% to 3.6%, respectively). Free cash flow projections were based on EBITDA estimates derived from financial information for Sanmar's four business units prepared in the first quarter of 2018 by Sanmar's management. Discount rates were based on the company's assessment of risk premiums to the appropriate risk-free rate of the economic environment in which Sanmar operates. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in Sanmar common shares was $605 (December 31, 2017 - $556). The changes in fair value of the company's investment in Sanmar common shares for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Sanmar Bonds

At June 30, 2018 the company estimated the fair value of its investment in Sanmar bonds using an industry accepted discounted cash flow and option pricing model that incorporated Sanmar's estimated credit spread of 8.2% (December 31, 2017 - 8.2%) and assumptions related to certain redemption options embedded in the bonds. The estimated credit spread was based on the credit spreads of a peer group of comparable companies adjusted for credit risk specific to Sanmar. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in Sanmar bonds was $321,218 (December 31, 2017 - $333,172). The changes in fair value of the company's investment in Sanmar bonds for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Investment in Saurashtra Freight Private Limited

Saurashtra Freight Private Limited ("Saurashtra"), a private company headquartered in Mumbai, India, runs one of the largest container freight stations at Mundra port (Gujarat). Services provided by Saurashtra's container freight station includes transportation of containers to and from the port, stuffing/ destuffing of containers, cargo storage, transportation of cargo to the end customer, and the storage, maintenance and repair of empty containers. In the third quarter of 2017 Saurashtra commenced operations in a new line of business, Fairfreight Lines, that focuses on new services for container shipping, offering integrated logistic solutions to its customers by providing Saurashtra's own containers to importers and exporters to transport cargo.

In February 2017 Fairfax India acquired a 51.0% equity interest in Saurashtra for cash consideration of $30,018 (approximately 2.0 billion Indian rupees).

At June 30, 2018 the company estimated the fair value of its investment in Saurashtra using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 15.0% to 15.8% and long term growth rates ranging from 4.0% to 5.0% (December 31, 2017 - 14.6% to 14.7% and 4.0% to 5.0%, respectively). Free cash flow projections were based on EBITDA estimates derived from financial information for Saurashtra’s two business units prepared in the second quarter of 2018 by Saurashtra’s management. The discount rates were based on the company’s assessment of risk premiums to the appropriate risk-free rate of the economic environment in which Saurashtra operates. At June 30, 2018 the company’s internal valuation model indicated that the fair value of the company's investment in Saurashtra was $25,278 (December 31, 2017 - $28,000). The changes in fair value of the company's investment in Saurashtra for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Investment in National Stock Exchange of India Limited

National Stock Exchange of India Limited ("NSE"), a private company located in Mumbai, India, operates India’s largest stock exchange. In addition to providing a platform for exchange-traded financial products in India, NSE's flagship index, Nifty50, is used extensively by investors in India and around the world as a barometer of the Indian capital markets.

In the third quarter of 2016 Fairfax India acquired a 1.0% equity interest in NSE for cash consideration of $26,783 (approximately 1.8 billion Indian rupees).

At June 30, 2018 the company's estimated fair value of its investment in NSE of $63,897 was based on a recent third party transaction completed in the first quarter of 2018, and corroborated by the company through independent evidence. At December 31, 2017 the estimated fair value of the company’s investment in NSE was based on an internal market approach valuation model. The model referenced the earnings multiple of a peer group of comparable companies that had a median earnings multiple of 26.2 times, that when applied to NSE’s earnings resulted in a fair value at December 31, 2017 of $40,452. The changes in fair value of the company's investment in NSE for the second quarters and first six months of 2018 and 2017 are presented in the tables disclosed earlier in note 5.

Proposed Investment in The Catholic Syrian Bank Ltd.

On February 20, 2018 the company entered into an agreement to acquire a 51.0% equity interest in The Catholic Syrian Bank Ltd. ("CSB") for approximately $176 million at current exchange rates (approximately 12.1 billion Indian rupees). The transaction is expected to close in the third quarter of 2018, subject to regulatory approvals and customary closing conditions. CSB, a private company, was established in 1920 and is a full-service bank offering neighborhood banking, non-resident Indian services, small-to-medium-enterprise and wholesale banking services through 421 branches and 251 automated teller machines across India. CSB is headquartered in Thrissur, India.

6. Cash and Investments

Fair Value Disclosures

The company's use of quoted market prices (Level 1), valuation models using observable market information as inputs (Level 2) and valuation models without observable market information as inputs (Level 3) in the valuation of securities by type of issuer was as follows:

(1) Comprised of funds set aside as restricted cash to fund term loan interest payments.

(2) Priced based on information provided by independent pricing service providers at June 30, 2018 and December 31, 2017. There were no changes in valuation techniques for these securities during the first six months of 2018.

(3) Includes the fair value of 738,760 CCPS that were priced based on the bid of Fairchem's share price at June 30, 2018.

Transfers between fair value hierarchy levels are considered effective from the beginning of the reporting period in which the transfer is identified. During the first six months of 2018 and 2017 there were no transfers of financial instruments between Level 1 and Level 2. During the first six months of 2018 the investment in NSE was priced based on the transaction price of a recent third party transaction that was completed in the first quarter of 2018, and corroborated by the company through independent evidence supporting the fair value. As a result of the pricing becoming observable the investment in NSE was transferred from Level 3 to Level 2 in the fair value hierarchy. During the first six months of 2017 as a result of the Merger of Fairchem and Privi, described in note 5, the investment in Privi was transferred out of Level 3 in the fair value hierarchy and aggregated with the Level 1 investment in Fairchem.

A summary of changes in fair value of the company's Private Indian Investments (classified as Level 3) denominated in the company's functional currency of the Indian rupee for the first six months of 2018 and 2017 was as follows:

Indian rupees (in millions)	**Bonds**	**Common stocks**

The changes in fair value of the company's Private Indian Investments (classified as Level 3) in the company's presentation currency of U.S. dollars are disclosed in note 5. For all Private Indian Investments classified as Level 3 in the fair value hierarchy net change in unrealized gains (losses) on investments in the first six months of 2018 and 2017 related to unrealized gains (losses) on investments held at June 30, 2018 and June 30, 2017.

The table that follows illustrates the potential impact on net earnings (loss) of various combinations of changes in unobservable inputs in the company's internal valuation models for its Private Indian Investments classified as Level 3 at June 30, 2018. The analysis assumes variations within a reasonably possible range determined by the company based on an analysis of the return on various equity indexes, management's knowledge of the Indian equity markets and the potential impact of changes in interest rates.

Bonds: Sanmar	321,218	Discounted cash flow	Credit spread	8.2%	14,776 / (14,074)	10,860 / (10,344)
Common Stocks:						
BIAL	643,783	Discounted cash flow	After-tax discount rate	10.7% to 12.3%	103,021 / (90,372)	89,371 / (78,398)
			Long term growth rate	3.0%	11,594 / (10,870)	10,058 / (9,430)
NCML	170,049	Discounted cash flow	After-tax discount rate	12.1% to 20.9%	29,287 / (25,297)	25,406 / (21,945)
			Long term growth rate	2.4% to 6.0%	9,395 / (8,727)	8,150 / (7,571)
Sanmar	605	Discounted cash flow	After-tax discount rate	15.8% to 22.7%	14,475 / (605)	12,557 / (525)
			Long term growth rate	2.0% to 4.0%	3,888 / (605)	3,373 / (525)
Saurashtra	25,278	Discounted cash flow	After-tax discount rate	15.0% to 15.8%	894 / (821)	776 / (712)
			Long term growth rate	4.0% to 5.0%	310 / (298)	269 / (259)

(1) The impact on the internal valuation models from changes in significant unobservable inputs deemed to be subject to the most judgment and estimates disclosed in the table above shows the hypothetical increase (decrease) in net earnings or a decrease (increase) in a net loss. Changes in the after-tax discount rates (50 basis points), long term growth rates (25 basis points), and credit spreads (100 basis points), each in isolation, would hypothetically change the fair value of the company's investments as noted in the table above. Generally, an increase (decrease) in long term growth rates, or a decrease (increase) in after-tax discount rates or credit spreads, would result in a higher (lower) fair value of the company's Private Indian Investments classified as Level 3 in the fair value hierarchy.

Fixed Income Maturity Profile

Bonds are summarized by their earliest contractual maturity date in the table that follows. Actual maturities may differ from maturities shown below due to the existence of call and put features. At June 30, 2018 bonds containing call features represented $321,218 (December 31, 2017 - $333,172) of the total fair value of bonds. At June 30, 2018 and December 31, 2017 there were no bonds containing put features.

	June 30, 2018		December 31, 2017	
	Amortized cost	**Fair value**	Amortized cost	Fair value
Due in 1 year or less	**289,505**	**321,218**	310,767	333,172
Due after 1 year through 5 years	**2,877**	**2,868**	—	—
Due after 5 years through 10 years	**239,715**	**230,728**	337,414	334,457
Due after 10 years	**26,504**	**23,901**	28,498	26,623
	558,601	**578,715**	676,679	694,252

Investment Income

An analysis of investment income for the three and six months ended June 30 is summarized in the tables that follow:

Interest and dividends

	Second quarter		**First six months**	
	2018	2017	**2018**	2017
Interest:				
Cash and cash equivalents	**25**	9	**28**	223

	(25,354)	**6,772**	**(18,582)**	(1,342)	1,077	(265)

(1) In the second quarter of 2018, comprised of unrealized gains from Sanmar bonds ($7,078), partially offset by unrealized losses from Indian corporate bonds ($3,491) and Government of India bonds ($2,485). In the second quarter of 2017, comprised of unrealized gains from Government of India bonds ($1,648), Indian corporate bonds ($1,582), and Sanmar bonds ($2,764).

(2) Refer to note 5 for a summary of changes in the fair value of the company's Public and Private Indian Investments during the second quarters of 2018 and 2017.

(3) On June 28, 2018 the company amended, restated and replaced the $400.0 million term loan with the $550.0 million term loan and accounted for the transaction as an extinguishment of debt which resulted in a net foreign exchange realized loss of $25,407 related to the $400.0 million term loan. The net change in unrealized gain of $5,990 was comprised of the reversal of the prior quarter unrealized foreign exchange loss of $4,137 on the $400.0 million term loan and an unrealized foreign exchange gain of $1,853 on the $550.0 million term loan.

	First six months					
	2018			2017		
	Net realized gains (losses)	**Net change in unrealized gains (losses)**	**Net gains (losses)**	Net realized gains (losses)	Net change in unrealized gains (losses)	Net gains (losses)
Net gains (losses) on investments:						
Bonds	**(3,333)**	**3,906** (1)	**573**	1,195	4 (1)	1,199
Common stocks	**—**	**(2,025)** (2)	**(2,025)**	—	548,279 (2)	548,279
	(3,333)	**1,881**	**(1,452)**	1,195	548,283	549,478

Investments	**(529)**	**1,691**	**1,162**	(1,046)	(127)	(1,173)
Term loans	**(25,407)** (3)	**(2,674)** (3)	**(28,081)**	9,812 (3)	—	9,812
Other	**(3,196)**	**—**	**(3,196)**	546	—	546
	(28,176)	**(983)**	**(29,159)**	(16,887)	(127)	(17,014)

(1) In the first six months of 2018, comprised of unrealized gains from Sanmar bonds ($11,309), partially offset by unrealized losses from Indian corporate bonds ($3,356) and Government of India bonds ($4,047). In the first six months of 2017, comprised of unrealized gains from Sanmar bonds ($4,973), partially offset by unrealized losses from Indian corporate bonds ($451) and Government of India bonds ($4,518).

(2) Refer to note 5 for a summary of changes in the fair value of the company's Public and Private Indian Investments during the first six months of 2018 and 2017.

(3) In the first six months of 2018 net realized foreign exchange loss of $25,407 related to the $400.0 million term loan, and the net change in unrealized loss of $2,674 was comprised of the reversal of the prior year unrealized foreign exchange gain of $4,527 on the $400.0 million term loan, partially offset by an unrealized foreign exchange gain of $1,853 on the $550.0 million term loan. In the first six months of 2017 net realized foreign exchange gain of $9,812 related to the early settlement of a $225.0 million term loan on March 31, 2017.

(4) Primarily related to the U.S. dollar net proceeds received from the secondary offerings completed in January 2017 that were held in U.S. dollar denominated cash equivalents until the funds were partially deployed to acquire the 38.0% equity interest in BIAL.

7. Term Loans

	June 30, 2018			December 31, 2017		
	Principal	**Carrying value**	**Fair value[(1)]**	Principal	Carrying value	Fair value[(1)]
Secured Term Loans:						
1 Year Term Loan, floating rate due June 27, 2019	**550,000**	**544,455**	**550,000**	—	—	—
1 Year Term Loan, floating rate due July 10, 2018	**—**	**—**	**—**	400,000	400,000	400,000
	550,000	**544,455**	**550,000**	400,000	400,000	400,000

(1) Principal approximated fair value at June 30, 2018 and December 31, 2017.

On June 28, 2018 the company completed a $550,000 principal amount, 1 year secured term loan, with an option to extend for an additional year ("$550.0 million term loan"), with a syndicate led by a Canadian bank, which amended, restated and replaced the existing 1 year secured term loan with a principal amount of $400,000 ("$400.0 million term loan"). The $550.0 million term loan bears interest at a rate of LIBOR plus 350 basis points. At June 30, 2018 the $550.0 million term loan was recognized net of issue costs of $5,545 (December 31, 2017 - nil) and recorded in term loans on the consolidated balance sheet. The issue costs will be amortized over one year and recorded in interest expense in the consolidated statement of earnings. At June 30, 2018 $2,742 of prepaid interest expense (December 31, 2017 - nil) related to the $550.0 million term loan was recorded in other assets on the consolidated balance sheet.

On July 11, 2017 the company had entered into an agreement with a Canadian bank for the $400.0 million term loan bearing interest at a rate of LIBOR plus 325 to 375 basis points. On July 13, 2017 the company used a portion of the net proceeds from the $400.0 million term loan to complete the additional 10.0% investment in BIAL of $200,093 and participate in the NCML rights issue (see note 5). Upon completion of the $550.0 million term loan, the $400.0 million term loan was accounted for as an extinguishment of debt with nil related to the release of unamortized issue costs.

Under the terms of the $550.0 million term loan, the company is required to maintain a debt service reserve account to fund the term loan interest payments. The cash held in the debt service reserve account is classified as restricted cash on the consolidated balance sheets. The $550.0 million term loan includes a financial covenant that requires the company to maintain common shareholders' equity of not less than $1.5 billion, increased from $1.3 billion financial covenant in the $400.0 million term loan. At June 30, 2018 the company was in compliance with the $550.0 million term loan financial covenant.

Interest Expense

In the second quarter and first six months of 2018 interest expense of $4,390 and $9,952 related to the $400.0 million term loan. In the first six months of 2017 interest expense of $3,241 was comprised of interest expense of $2,013 related to a 2 year secured term loan with a principal amount of $225,000 and the release of unamortized issue costs of $1,228 on extinguishment of that term loan.

8. Common Shareholders' Equity

Common stock

The number of shares outstanding was as follows:

	First six months	
	2018	2017
Subordinate voting shares - January 1	**117,432,631**	74,881,031
Issuances of shares	**7,663,685**	42,553,500
Subordinate voting shares - June 30	**125,096,316**	117,434,531
Multiple voting shares - beginning and end of period	**30,000,000**	30,000,000
Common shares effectively outstanding - June 30	**155,096,316**	147,434,531

Capital transactions

On March 9, 2018 the company issued 7,663,685 subordinate voting shares to Fairfax to settle the performance fee payable of $114,437 for the first calculation period (three year period ending on December 31, 2017). Under the terms of the Investment Advisory Agreement (defined in note 12), settlement of the performance fee was through the issuance of subordinate voting shares, calculated based on the performance fee payable at December 31, 2017 of $114,437 divided by the volume-weighted average trading price of the company's subordinate voting shares for the 10 trading days prior to and including the last day of the calculation period (''VWAP'') of $14.93. Refer to note 12 for additional details on the settlement of the December 31, 2017 performance fee payable.

Repurchase of Shares

There were no repurchases for cancellation of subordinate voting shares during the first six months of 2018 and 2017.

9. Net Earnings per Share

Net earnings (loss) per share is calculated in the following tables based on the weighted average common shares outstanding:

	Second quarter		First six months	
	2018	2017	**2018**	2017
Net earnings (loss) – basic and diluted	**(69,647)**	268,595	**(40,822)**	417,598
Weighted average common shares outstanding – basic	**155,096,316**	147,434,531	**152,259,482**	144,613,304
Contingently issuable subordinate voting shares	**—**	6,745,596	**—**	6,745,596
Weighted average common shares outstanding – diluted	**155,096,316**	154,180,127	**152,259,482**	151,358,900
Net earnings (loss) per common share – basic	**$ (0.45)**	$ 1.82	**$ (0.27)**	$ 2.89
Net earnings (loss) per common share – diluted	**$ (0.45)**	$ 1.74	**$ (0.27)**	$ 2.76

At June 30, 2018 there were no contingently issuable subordinate voting shares relating to a performance fee payable to Fairfax (June 30, 2017 - 6,745,596 related to the first calculation period). The performance fee for the second calculation period is assessed quarterly and relates to the three-year period from January 1, 2018 to December 31, 2020. Under the terms of the Investment Advisory Agreement (defined in note 12), if a performance fee is payable for period ending on December 31, 2020, settlement of the performance fee will take place in subordinate voting shares of the company if the market price per share is less than two times the then book value per share. The number of subordinate voting shares to be issued will be calculated based on the VWAP of the company's subordinate voting shares. Refer to note 12 for further details on the contingently issuable subordinate voting shares in the event that a performance fee is determined to be payable.

10. Income Taxes

The company's provision for (recovery of) income taxes for the three and six months ended June 30 are summarized in the following table:

	Second quarter		First six months	
	2018	2017	**2018**	2017
Current income tax:				
Current year expense (recovery)	**411**	(3,644)	**813**	748
Adjustment to prior years' income taxes	**—**	(632)	**—**	(632)
	411	(4,276)	**813**	116
Deferred income tax:				
Origination and reversal of temporary differences	**(84)**	594	**(84)**	1,190
Adjustments to prior years' deferred income taxes	**84**	—	**84**	—
	—	594	**—**	1,190
Provision for (recovery of) income taxes	**411**	(3,682)	**813**	1,306

A significant portion of the company's earnings (loss) before income taxes is earned (incurred) outside of Canada. The statutory income tax rates for jurisdictions outside of Canada generally differ from the Canadian statutory income tax rate (and may be significantly higher or lower).

During the second quarter of 2016, India and Mauritius amended their double income tax treaty ("India-Mauritius tax treaty"). As a result, capital gains realized by Mauritius residents on dispositions of shares of Indian companies acquired on or after April 1, 2017 and disposed of on or before March 31, 2019 will be subject to tax in India at half of the India domestic tax rate. Capital gains realized by Mauritius residents on dispositions of shares of Indian companies acquired on or after April 1, 2017 and disposed of after March 31, 2019 will be subject to tax in India at the full India domestic tax rate. Capital gains realized by Mauritius residents on dispositions of shares of Indian companies acquired prior to April 1, 2017 remain exempt from capital gains tax in India.

On March 29, 2018 India enacted the Finance Act 2018 which repealed, with effect from April 1, 2018, the long term capital gains tax exemption which was available in respect of transfers of equity shares of Indian companies on which Securities Transaction Tax was paid at the time of acquisition and transfer of such shares. As a result, long term capital gains realized on such transfers will generally be taxed at a rate of 10.0%. However, grandfathering of the long term capital gains exemption in respect of any accrued gain on such shares held as of January 31, 2018 will generally be available to the extent of the accrued gain as of January 31, 2018. Capital gains realized by a tax resident of Mauritius on a transfer of equity shares of an Indian company which were acquired prior to April 1, 2017 will continue to be exempt from capital gains tax in India by virtue of the India-Mauritius tax treaty, notwithstanding the repeal of the long term capital gains tax exemption under Indian domestic law. In addition, a long term capital gain realized by a Mauritius tax resident on shares acquired on or after April 1, 2017, and sold prior to March 31, 2019, will continue to be taxed at the rate of 50.0% of the prevailing domestic Indian capital gains tax rate by virtue of the India-Mauritius tax treaty. At June 30, 2018 the company evaluated the potential impact of the application of capital gains tax in India on any future dispositions of investments in equity shares held by FIH Mauritius and FIH Private and concluded that there are currently no Indian capital gains tax implications. The company will continue to evaluate the potential impact of the Indian capital gains tax as it relates to any future dispositions of investments in equity shares.

The company's earnings (loss) before income taxes by jurisdiction and the associated provision for (recovery of) income taxes for the three and six months ended June 30 are summarized in the following table:

	Second quarter					
	2018			2017		
	Canada	**Mauritius**	**Total**	Canada	Mauritius	Total
Earnings (loss) before income taxes	**(23,471)**	**(45,765)**	**(69,236)**	(2,099)	267,012	264,913
Provision for (recovery of) income taxes	**—**	**411**	**411**	(3,045)	(637)	(3,682)
Net earnings (loss)	**(23,471)**	**(46,176)**	**(69,647)**	946	267,649	268,595

	First six months					
	2018			2017		
	Canada	**Mauritius**	**Total**	Canada	Mauritius	Total
Earnings (loss) before income taxes	**(37,630)**	**(2,379)**	**(40,009)**	(18,370)	437,274	418,904
Provision for income taxes	**—**	**813**	**813**	1,282	24	1,306
Net earnings (loss)	**(37,630)**	**(3,192)**	**(40,822)**	(19,652)	437,250	417,598

The decrease in pre-tax profitability in Mauritius in the second quarter and first six months of 2018 compared to the second quarter and first six months of 2017 primarily reflected decreased net change in unrealized gains on investments (principally related to lower unrealized gains from the company's Public Indian Investments) and increased investment and advisory fees, partially offset by decreased foreign exchange losses and performance fee. The increase in pre-tax losses in Canada in the second quarter and first six months of 2018 compared to the second quarter and first six months of 2017 principally related to increased realized foreign exchange losses and interest expense related to the $400.0 million term loan, partially offset by decreased performance fee and investment and advisory fees.

A reconciliation of the provision for (recovery of) income taxes calculated at the Canadian statutory income tax rate to the provision for (recovery of) income taxes at the effective tax rate in the interim consolidated financial statements for the three and six months ended June 30 are summarized in the following table:

	Second quarter		First six months	
	2018	2017	**2018**	2017
Canadian statutory income tax rate	**26.5%**	26.5%	**26.5%**	26.5%
Provision for (recovery of) income taxes at the Canadian statutory income tax rate	**(18,347)**	70,202	**(10,602)**	111,010
Tax rate differential on losses incurred (income earned) outside of Canada	**6,482**	(98,127)	**2,788**	(139,228)
Provision (recovery) relating to prior years	**84**	(632)	**84**	(632)
Change in unrecorded tax benefit of losses and temporary differences	**7,297**	25,044	**1,365**	24,006
Foreign exchange effect	**4,885**	(169)	**7,168**	6,150
Other including permanent differences	**10**	—	**10**	—
Provision for (recovery of) income taxes	**411**	(3,682)	**813**	1,306

The tax rate differential on losses incurred outside of Canada of $6,482 and $2,788 in the second quarter and first six months of 2018 (2017 - income earned of $98,127 and $139,228) principally reflected the impact of net investment losses incurred taxed in India and Mauritius at lower rates.

The change in unrecorded tax benefit of losses and temporary differences of $7,297 in the second quarter of 2018 (2017 - $25,044) principally reflected changes in unrecorded deferred tax assets incurred related to foreign accrual property losses of $6,057 (2017 - $25,044) with respect to the company's wholly-owned subsidiaries and net operating loss carryforwards in Canada of $1,280 (2017 - nil) that were not recorded by the company as the related pre-tax losses did not meet the recognition criteria under IFRS. The change in unrecorded tax benefit of losses and temporary differences of $1,365 in the first six months of 2018 (2017 - $24,006) principally reflected changes in unrecorded deferred tax assets incurred related to net operating loss carryforwards in Canada of $2,750 (2017 - nil), partially offset by net utilized foreign accrual property losses of $1,345 (2017 - foreign accrual property losses of $24,006). At June 30, 2018 deferred tax assets in Canada of $40,225 (December 31, 2017 - $38,860) were not recorded as it was considered not probable that those losses could be utilized by the company.

Foreign exchange effect of $4,885 and $7,168 in the second quarter and first six months of 2018 (2017 - $169 and $6,150) principally reflected the impact of fluctuations in the value of the Canadian dollar relative to the U.S. dollar and the Indian rupee as the company computes its corporate tax liability in Canadian dollars pursuant to the requirements of Canadian tax authorities, whereas the functional currency of the company and its Mauritius subsidiaries is the Indian rupee.

11. Financial Risk Management

Overview

There were no significant changes in the types of the company's risk exposures or the processes used by the company for managing those risk exposures at June 30, 2018 compared to those identified at December 31, 2017, and disclosed in the company's annual consolidated financial statements for the year ended December 31, 2017, except as discussed below.

Market Risk

Market risk (comprised of foreign currency risk, interest rate risk and other price risk) is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The company is exposed to market risk principally in its investing activities and to the extent that those activities expose the company to foreign currency risk. The valuation of the company's investment portfolio is largely dependent on the underlying performance of the companies within the portfolio, but may also be affected, along with other financial statement items, by fluctuations in interest rates, foreign currency exchange rates and market prices.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument or another asset or liability will fluctuate because of changes in exchange rates and as a result, could produce an adverse effect on net earnings and common shareholders' equity when measured in Indian rupees, the company's functional currency. The company’s net earnings and common shareholders' equity may also be significantly affected by foreign currency translation movements as the majority of its net assets and net earnings are denominated in a currency other than the company's U.S. dollar presentation currency. The company has not hedged its foreign currency risk.

The company's net foreign currency exposure on balances denominated in currencies other than the Indian rupee (expressed in U.S. dollars) are primarily comprised as follows:

	June 30, 2018					December 31, 2017				
	Cash and cash equivalents	**Short term investments**	**Term loans**	**Payable to related parties**	**Net exposure**	Cash and cash equivalents	Short term investments	Term loans	Payable to related parties	Net exposure
U.S. dollars	**149,575** (1)	**15,926**	**(544,455)**	**(7,772)**	**(386,726)**	19,389 (1)	27,481	(400,000)	(122,791)	(475,921)
All other currencies	**2,931**	**—**	**—**	**(35)**	**2,896**	4,453	—	—	(35)	4,418
Total	**152,506**	**15,926**	**(544,455)**	**(7,807)**	**(383,830)**	23,842	27,481	(400,000)	(122,826)	(471,503)

(1) At June 30, 2018 cash and cash equivalents included restricted cash of $27,222 (December 31, 2017 - $10,598) to fund the term loan interest payments.

The table above shows the company's net exposure to the U.S. dollar and all other currencies, other than the Indian rupee. If the Indian rupee appreciated by 5.0% against the U.S. dollar and all other currencies, the effect on pre-tax earnings and net earnings would be a hypothetical increase of $19,192 and $14,106 (December 31, 2017 - $23,575 and $17,328). Certain shortcomings are inherent in the method of analysis presented, including the assumption that the 5.0% appreciation of the Indian rupee occurred with all other variables held constant.

The company's net liability exposure to the U.S. dollar decreased at June 30, 2018 compared to December 31, 2017 primarily as a result of the settlement of the performance fee payable on March 9, 2018, partially offset by the increase in term loans, net of the increase in cash and cash equivalents.

Interest Rate Risk

Interest rate risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Typically, as interest rates rise, the fair value of fixed income investments decline and, conversely, as interest rates decline, the fair value of fixed income investments rise. In each case, the longer the maturity of the financial instrument, the greater the consequence of a change in interest rates. The company's interest rate risk management strategy is to position its fixed income portfolio based on its view of future interest rates and the yield curve, balanced with liquidity requirements. General economic conditions, political conditions and many other factors can also adversely affect the bond markets and, consequently, the value of fixed income securities held. Interest rate movements in India may affect the company's common shareholders' equity and net earnings. The Portfolio Advisor and Fairfax actively monitor interest rates in India and the potential impact changes in interest rates may have on the company’s investment portfolio. There were no significant changes to the company's framework used to monitor, evaluate and manage interest rate risk at June 30, 2018 compared to December 31, 2017.

The company's exposure to interest rate risk decreased in the first six months of 2018 primarily reflecting the sale of Government of India bonds to finance the additional 6.0% equity interest acquired in BIAL. The table that follows displays the potential impact of changes in interest rates on the company's fixed income portfolio based on parallel 200 basis point shifts up and down, in 100 basis point increments. This analysis was performed on each individual security, with the hypothetical effect on net earnings.

	June 30, 2018			December 31, 2017		
	Fair value of fixed income portfolio	**Hypothetical $ change effect on net earnings**	**Hypothetical % change in fair value**	Fair value of fixed income portfolio	Hypothetical $ change effect on net earnings	Hypothetical % change in fair value
Change in interest rates						
200 basis point increase	**525,679**	**(38,981)**	**(9.2)%**	625,972	(50,186)	(9.8)%
100 basis point increase	**551,813**	**(19,773)**	**(4.6)%**	659,444	(25,584)	(5.0)%
No change	**578,715**	**—**	**—**	694,252	—	—
100 basis point decrease	**609,096**	**22,330**	**5.2 %**	733,247	28,661	5.6 %
200 basis point decrease	**640,507**	**45,417**	**10.7 %**	773,950	58,578	11.5 %

Certain shortcomings are inherent in the method of analysis presented above. Computations of the prospective effects of hypothetical interest rate changes are based on numerous assumptions, including the maintenance of the level and composition of fixed income securities at the indicated date, and should not be relied on as indicative of future results. Actual values may differ from the projections presented should market conditions vary from assumptions used in the calculation of the fair value of individual securities; such variations include non-parallel shifts in the term structure of interest rates and a change in individual issuer credit spreads.

Market Price Fluctuations

Market price fluctuation is the risk that the fair value or future cash flows of an equity investment will fluctuate because of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether those changes are caused by factors specific to the individual investment or its issuer, or other factors affecting all similar investments in the market. The company's exposure to equity price risk through its equity instruments at June 30, 2018 compared to December 31, 2017 are described below.

The company holds significant equity investments. The market value and the liquidity of these investments are volatile and may vary dramatically either up or down in short periods, and their ultimate value will therefore only be known over a period of time or on disposition.

The company's exposure to market price risk increased during the first six months of 2018 primarily as a result of the additional 6.0% equity interest acquired in BIAL (Level 3 investment in the fair value hierarchy) and unrealized appreciation in NSE (Level 2 investment in the fair value hierarchy). Refer to note 6 for the potential impact on net earnings of various combinations of changes in significant unobservable inputs in the company's internal valuation models for the company's investments classified as Level 3 in the fair value hierarchy.

The following table illustrates the potential impact on pre-tax earnings (loss) and net earnings (loss) of a 10.0% change in the fair value of the company's equity investments classified as Level 1 and Level 2 in the fair value hierarchy (IIFL, Fairchem, 5paisa, Other and NSE).

	June 30, 2018		December 31, 2017	
Change in Indian equity markets	**+10.0%**	**-10.0%**	+10.0%	-10.0%
Level 1 and Level 2 equity investments, fair value at period end	**1,012,308**	**1,012,308**	1,057,643	1,057,643
Hypothetical $ change effect on pre-tax earnings (loss)	**101,231**	**(101,231)**	105,764	(105,764)
Hypothetical $ change effect on net earnings (loss)	**86,931**	**(86,931)**	91,750	(91,750)

Credit Risk

Credit risk is the risk of loss resulting from the failure of a counterparty to honour its financial obligations to the company. Credit risk arises predominantly with respect to cash and cash equivalents, short term investments and investments in debt instruments. There were no significant changes to the company's exposure to credit risk (except as set out in the discussion which follows) or the framework used to monitor, evaluate and manage credit risk at June 30, 2018 compared to December 31, 2017.

Cash and Cash Equivalents, and Short Term Investments

At June 30, 2018 the company's cash and cash equivalents of $125,284 (December 31, 2017 - $13,244) were primarily held at the holding company in major financial institutions (principally in high credit-quality Canadian financial institutions). The company monitors risks associated with cash and cash equivalents, and short term investments by regularly reviewing the financial strength and creditworthiness of these financial institutions.

At June 30, 2018, the company's short term investments in U.S. treasury bills of $15,926 (December 31, 2017 - $27,481) were rated Aaa by Moody's Investors Service, Inc. ("Moody's") and AA+ by Standard & Poor's Financial Services LLC ("S&P").

Investments in Debt Instruments

The company's risk management strategy for debt instruments is to invest primarily in high credit quality issuers and to limit the amount of credit exposure with respect to any one corporate issuer. While the company reviews third party credit ratings, it also carries out its own analysis and does not delegate the credit decision to rating agencies. The company endeavours to limit credit exposure by monitoring fixed income portfolio limits on individual corporate issuers and limits based on credit quality.

At June 30, 2018 the company's debt instruments were all considered to be subject to credit risk with a fair value of $578,715 (December 31, 2017 - $694,252), representing 22.3% (December 31, 2017 - 26.1%) of the total cash and investments portfolio.

The composition of the company's fixed income portfolio is presented in the table below:

	June 30, 2018		December 31, 2017	
	Fair value	**Rating**	Fair value	Rating
Government of India bonds(1)	**163,072**	**Baa2/BBB-**	259,356	Baa2/BBB-
Indian corporate bonds(2)	**94,425**	**AAA**	101,724	AAA
Sanmar bonds(3)	**321,218**	**BBB-**	333,172	BBB-
Total bonds	**578,715**		694,252	

(1) Rated Baa2 by Moody's and BBB- by S&P.

(2) Primarily all Indian Corporate bonds are rated AAA by subsidiaries of a Designated Rating Organization ("DRO"), being DBRS Limited, S&P, Fitch Inc. and Moody's, or subsidiaries or affiliates of a DRO.

(3) Rated BBB- by Brickwork Ratings, an Indian rating agency.

The company's exposure to credit risk from its investment in fixed income securities decreased at June 30, 2018 compared to December 31, 2017 reflecting sales of Government of India bonds (to finance the additional 6.0% equity interest acquired in BIAL), unrealized losses on Government of India and Indian corporate bonds, and unrealized foreign currency translation losses in the first six months of 2018, partially offset by purchases of Indian corporate bonds and unrealized gains on Sanmar bonds. Except as described above, there were no other significant changes to the composition of the company's fixed income portfolio classified according to each security's respective issuer credit rating at June 30, 2018 compared to December 31, 2017.

Income Taxes Refundable

The company had income taxes refundable of $2,887 at June 30, 2018 (December 31, 2017 - $3,098).

Liquidity Risk

Liquidity risk is the risk that the company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. There were no significant changes to the company's exposure to liquidity risk (except as set out in the discussion below) or the framework used to monitor, evaluate and manage liquidity risk at June 30, 2018 compared to December 31, 2017.

The company believes that undeployed cash and investments at June 30, 2018 provide adequate liquidity to meet the company's remaining known significant commitments in 2018, which are principally comprised of the proposed investment in CSB, investment and advisory fees, general and administration expenses and potentially corporate income taxes. The company expects to continue to receive investment income on its holdings of fixed income securities and dividends from its equity investments to supplement its cash and cash equivalents. The company has adequate working capital to support its operations.

The performance fee payable to Fairfax for the first calculation period (ending on December 31, 2017) was settled on March 9, 2018 by the company issuing 7,663,685 subordinate voting shares to Fairfax. Refer to note 12 for additional details on the settlement of the December 31, 2017 performance fee payable.

Concentration Risk

The company's cash and investments are primarily concentrated in India and in Indian businesses or businesses with customers, suppliers or business primarily conducted in, or dependent on, India. The market value of the company's investments, the income generated by the company and the company's performance will be particularly sensitive to changes in the economic condition, interest rates, and regulatory environment in India. Adverse changes to the economic condition, interest rates or regulatory environment in India may have a material adverse effect on the company's business, cash flows, financial condition and net earnings.

The company's total cash and investments composition by the issuer's country of domicile was as follows:

	June 30, 2018					December 31, 2017				
	India	**U.S.**	**Canada**	**Other**	**Total**	India	U.S.	Canada	Other	Total
Cash and cash equivalents	**—**	**996**	**123,143**	**1,145**	**125,284**	—	—	9,934	3,310	13,244

	1,852,023	**—**	**—**	**—**	**1,852,023**	1,913,993	—	—	—	1,913,993
Total cash and investments	**2,430,738**	**16,922**	**150,365**	**1,145**	**2,599,170**	2,608,245	27,481	20,532	3,310	2,659,568

The company's holdings of Public and Private Indian Investments (see note 5) at June 30, 2018 and December 31, 2017 are summarized by the issuer's primary sector in the table below:

	June 30, 2018	December 31, 2017
Financial services	**910,413**	948,895
Infrastructure	**643,783**	608,288
Commercial and industrial	**619,045**	689,982
	2,173,241	2,247,165

During the first six months of 2018 the company's concentration risk in the financial services sector decreased primarily due to the unrealized depreciation in IIFL, partially offset by unrealized appreciation in NSE and the additional investment in other common stock, while the company's concentration risk in the infrastructure sector increased primarily due to the additional 6.0% equity interest acquired in BIAL, and the company's concentration risk in the commercial and industrial sector decreased due to unrealized depreciation primarily in Fairchem.

The company will not make an Indian Investment if, after giving effect to such investment, the total invested amount of such investment would exceed 20.0% of the company's total assets at the time of the investment; provided, however, that the company is permitted to complete up to two Indian Investments where, after giving effect to each such investment, the total invested amount of each such investment would be less than or equal to 25.0% of the company's total assets (the "Investment Concentration Restriction"). The company's Investment Concentration Restriction decreased at June 30, 2018 from December 31, 2017 principally as a result of net unrealized foreign currency translation losses and the settlement of the payable for rights issue, partially offset by the incremental net proceeds received on the $550.0 million term loan. Indian Investments may be financed through equity or debt offerings as part of the company's objective to reduce its cost of capital and provide returns to common shareholders. At June 30, 2018 the company determined that it was in compliance with the Investment Concentration Restriction.

Capital Management

The company's objectives when managing capital are to protect its lenders, to safeguard its ability to continue as a going concern in order to provide returns for common shareholders, and to maintain an optimal capital structure to reduce the cost of capital. The company will seek attractive risk-adjusted returns, but will at all times seek downside protection and attempt to minimize the loss of capital. Total capital (comprised of the term loans and common shareholders' equity) increased from $2,532,464 at December 31, 2017 to $2,600,663 at June 30, 2018, principally reflecting a net increase in term loans, partially offset by a decrease in common shareholders' equity, as described below.

On June 28, 2018 the company amended, restated and replaced the existing $400.0 million term loan with the $550.0 million term loan bearing interest at a rate of LIBOR plus 350 basis points, which includes an option for the company to extend the $550.0 million term loan for an additional year. On July 11, 2017 the company had entered into an agreement with a Canadian bank for the $400.0 million term loan. On July 13, 2017 the company used a portion of the net proceeds from the $400.0 million term loan to complete the additional 10.0% investment in BIAL of $200,093 and participate in the NCML rights issue. The $550.0 million term loan includes a financial covenant that requires the company to maintain common shareholders' equity of not less than $1.5 billion, increased from $1.3 billion financial covenant in the $400.0 million term loan. At June 30, 2018 the company was in compliance with the $550.0 million term loan financial covenant.

Common shareholders' equity decreased to $2,056,208 at June 30, 2018 from $2,132,464 at December 31, 2017 primarily reflecting unrealized foreign currency losses ($149,805) and a net loss ($40,822) in the first six months of 2018, partially offset by the issuance of subordinate voting shares to Fairfax to settle the December 31, 2017 performance fee payable ($114,437).

12. Related Party Transactions

Payable to Related Parties

The company's payable to related parties was comprised as follows:

	June 30, 2018	December 31, 2017
Performance fee	**—**	114,437
Investment and advisory fees	**7,772**	8,293
Other	**35**	96
	7,807	122,826

Investment Advisory Agreement

The company and its subsidiaries have entered into an agreement with Fairfax and the Portfolio Advisor to provide administration and investment advisory services to the company (the "Investment Advisory Agreement"). As compensation for the provision of these services, the company pays an investment and advisory fee, and if applicable, a performance fee. Such fees are determined with reference to the company's common shareholders' equity.

Performance Fee

First Calculation Period

On March 9, 2018 the company issued 7,663,685 subordinate voting shares to Fairfax calculated as the performance fee payable at December 31, 2017 of $114,437 divided by the VWAP of $14.93. Under the terms of the Investment Advisory Agreement, settlement of the performance fee will take place in subordinate voting shares of the company if the market price per share is less than two times the then book value per share. In accordance with the Investment Advisory Agreement, the number of subordinate voting shares issued was calculated based on the VWAP of $14.93. The issuance of these subordinate voting shares increased Fairfax's equity interest in Fairfax India from 30.2% at December 31, 2017 to 33.6% at March 9, 2018.

Second Calculation Period

The period from January 1, 2018 to December 31, 2020 (the "second calculation period") will be the next consecutive three-year period after December 31, 2017 for which a performance fee, if applicable, will be accrued. The performance fee for the second calculation period will be calculated as 20% of any increase in the book value per share at the end of period (before factoring in the impact of the performance fee for the second calculation period) above a 5% per annum increase over the higher of: (i) the hurdle per share, which is the amount of common shareholders' equity per share at any time which must be achieved before any performance fee would be payable; or, (ii) the then book value per share at the end of the first calculation period (December 31, 2017), adjusted to reflect the issuance of subordinate voting shares on March 9, 2018 to settle the first calculation period performance fee, referred to as the "high water mark per share". Under the Investment Advisory Agreement, the performance fee, if applicable, will be paid within 30 days after the company issues its annual audited consolidated financial statements for the year ended December 31, 2020, in subordinate voting shares of the company unless the market prices per share of those shares is more than two times the then book value per share, in which event Fairfax may elect to receive that fee in cash. The number of subordinate voting shares to be issued will be calculated based on the VWAP in respect of which the performance fee is paid.

The company determined that no performance fee was payable at June 30, 2018 (December 31, 2017 - $114,437 related to the first calculation period) as the book value per share of $13.26 at June 30, 2018 was lower than the high water mark per share at that date of $14.49. For the second quarter and first six months of 2018 the performance fee recorded in the consolidated statements of earnings was nil and nil (2017 - $62,390 and $106,961).

Investment and Advisory Fee

The investment and advisory fee is calculated and payable quarterly as 0.5% of the value of undeployed capital and 1.5% of the company's common shareholders' equity less the value of undeployed capital. For the first six months of 2018 the company determined that the majority of its assets were invested in Indian Investments, which are considered deployed capital. The investment and advisory fees recorded in the consolidated statements of earnings for the second quarter and first six months of 2018 were $8,265 and $16,486 (2017 - $9,441 and $14,244).

Management Compensation

Pursuant to the Investment Advisory Agreement, Fairfax is required to provide a Chief Executive Officer, a Chief Financial Officer and a Corporate Secretary to the company. For so long as the Investment Advisory Agreement remains in effect, all compensation payable to the Chief Executive Officer, the Chief Financial Officer and the Corporate Secretary of the company will be borne by Fairfax.

13. General and Administration Expenses

General and administration expenses for the three and six months ended June 30 were comprised as follows:

	Second quarter		**First six months**	
	2018	2017	**2018**	2017
Audit, legal and tax professional fees	**490**	719	**1,029**	1,434
Salaries and employee benefit expenses	**169**	154	**528**	529
Administrative expenses	**240**	271	**363**	535
Other	**93**	92	**187**	240
	992	1,236	**2,107**	2,738

14. Supplementary Cash Flow Information

Cash and cash equivalents were included in the consolidated balance sheets and statements of cash flows as follows:

	June 30, 2018	December 31, 2017
Cash and balances with banks	**9,288**	13,244
Term deposits with Canadian financial institutions and U.S. treasury bills	**115,996**	—
	125,284	13,244

Details of certain cash flows included in the consolidated statements of cash flows for the three and six months ended June 30 were as follows:

	Second quarter		First six months	
	2018	2017	**2018**	2017
(a) Purchases of investments classified as FVTPL				
Bonds	**—**	—	**(3,022)**	(25,194)
Common stocks	**(67,391)**	—	**(88,368)**	(490,691)
	(67,391)	—	**(91,390)**	(515,885)
(b) Sales of investments classified as FVTPL				
Bonds	**67,296**	—	**72,750**	51,933
Common stocks	**—**	—	**—**	26,525
	67,296	—	**72,750**	78,458
(c) Net interest and dividends received				
Interest received	**9,814**	6,127	**17,247**	13,424
Dividends received	**—**	—	**6,575**	4,625
Interest paid on term loans	**(7,132)**	—	**(12,694)**	(1,470)
	2,682	6,127	**11,128**	16,579
(d) Income taxes paid	**411**	824	**813**	1,156

Index to Management's Discussion and Analysis of Financial Condition and Results of Operations

Notes to Management's Discussion and Analysis of Financial Condition and Results of Operations

(1) Readers of the Management's Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) should review the notes to the interim consolidated financial statements for the three and six months ended June 30, 2018, and the company's 2017 Annual Report.

(2) Unless otherwise noted, consolidated financial information of the company within this MD&A is derived from the consolidated financial statements of the company prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (“IASB”), and is presented in U.S. dollars with the Indian rupee as the functional currency of the company and its consolidated subsidiaries.

(3) The MD&A contains references to book value per share. On any date, book value per share is calculated as common shareholders' equity at the end of the period, determined in accordance with IFRS, divided by the total number of common shares of the company outstanding on that date. Book value per share is a key performance measure of the company and is closely monitored as it is used to calculate the performance fee payable, if any, to Fairfax Financial Holdings Limited ("Fairfax").

(4) Throughout this MD&A, the term “Indian Investments" refers to deployed capital invested in Public and Private Indian Investments as disclosed in note 5 (Indian Investments) to the interim consolidated financial statements for the three and six months ended June 30, 2018.

Business Developments

Overview

Fairfax is Fairfax India's ultimate parent and acts as its administrator. Fairfax is a holding company which, through its subsidiaries, is principally engaged in property and casualty insurance and reinsurance and the associated investment management. Hamblin Watsa Investment Counsel Ltd. (the “Portfolio Advisor”), a wholly-owned subsidiary of Fairfax and registered portfolio manager in the province of Ontario, is the portfolio advisor of the company and its consolidated subsidiaries, responsible to source and advise with respect to all investments. Fairfax India’s subordinate voting shares trade on the Toronto Stock Exchange ("TSX") under the symbol FIH.U. The multiple voting shares of the company are not traded.

Capital Transactions

On June 28, 2018 the company completed a $550,000 principal amount, 1 year secured term loan, with an option to extend for an additional year ("$550.0 million term loan"), with a syndicate led by a Canadian bank, which amended, restated and replaced the existing 1 year secured term loan with a principal amount of $400,000 ("$400.0 million term loan"). The $550.0 million term loan bears interest at a rate of LIBOR plus 350 basis points. On July 11, 2017 the company had entered into an agreement with a Canadian bank for the $400.0 million term loan. On July 13, 2017 the company used a portion of the net proceeds from the $400.0 million term loan to complete the additional 10.0% investment in BIAL of $200,093 and participate in the NCML rights issue.

On March 9, 2018 the company issued 7,663,685 subordinate voting shares to Fairfax to settle the performance fee payable of $114,437 for the first calculation period (three year period ending on December 31, 2017). Under the terms of the Investment Advisory Agreement (defined in note 12 (Related Party Transactions) to the interim consolidated financial statements for the three and six months ended June 30, 2018), settlement of the performance fee was through the issuance of subordinate voting shares, calculated based on the performance fee payable at December 31, 2017 of $114,437 divided by the volume-weighted average trading price of the company’s subordinate voting shares for the 10 trading days prior to and including the last day of the calculation period (‘‘VWAP’’) of $14.93. The issuance of these subordinate voting shares increased Fairfax's equity interest in Fairfax India from 30.2% at December 31, 2017 to 33.6% at March 9, 2018.

Indian Investments

Full descriptions of the Indian Investments committed to and acquired in the first six months of 2018 are provided in the Indian Investments section of this MD&A.

Operating Environment

Overview

India has emerged as the fastest growing major economy in the world according to the Central Statistics Organization and the International Monetary Fund. According to the International Monetary Fund, the Indian economy will continue to grow more than 7% in the financial year 2018-19. The improvement in India’s economic fundamentals has accelerated in the recent years with the combined impact of strong government reforms and the Reserve Bank of India's ("RBI") inflation focus supported by favourable global commodity prices.

Union Budget for Fiscal Year 2018-19

On March 29, 2018 India enacted the Finance Act 2018 which repealed, with effect from April 1, 2018, the long term capital gains tax exemption which was available in respect of transfers of equity shares of Indian companies on which Securities Transaction Tax was paid at the time of acquisition and transfer of such shares. As a result, long term capital gains realized on such transfers will generally be taxed at a rate of 10.0%. However, grandfathering of the long term capital gains exemption in respect of any accrued gain on such shares held as of January 31, 2018 will generally be available to the extent of the accrued gain as of January 31, 2018. Capital gains realized by a tax resident of Mauritius on a transfer of equity shares of an Indian company which were acquired prior to April 1, 2017 will continue to be exempt from capital gains tax in India by virtue of the India-Mauritius tax treaty, notwithstanding the repeal of the long term capital gains tax exemption under Indian domestic law. In addition, a long term capital gain realized by a Mauritius tax resident on shares acquired on or after April 1, 2017, and sold prior to March 31, 2019, will continue to be taxed at the rate of 50.0% of the prevailing domestic Indian capital gains tax rate by virtue of the India-Mauritius tax treaty. At June 30, 2018 the company evaluated the potential impact of the application of capital gains tax in India on any future dispositions of investments in equity shares held by FIH Mauritius Investments Ltd ("FIH Mauritius") and FIH Private Investments Ltd ("FIH Private"), wholly-owned subsidiaries of the company, and concluded that there are currently no Indian capital gains tax implications. The company will continue to evaluate the potential impact of the Indian capital gains tax as it relates to any future dispositions of investments in equity shares.

Business Objectives

Investment Objective

Fairfax India is an investment holding company whose objective is to achieve long term capital appreciation, while preserving capital, by investing in public and private equity securities and debt instruments in India and Indian businesses or other businesses with customers, suppliers or business primarily conducted in, or dependent on, India ("Indian Investments"). The company makes all or substantially all of its investments either directly or through one of its wholly-owned subsidiaries, FIH Mauritius and FIH Private.

Investment Strategy

The company invests in businesses that are expected to benefit from India's pro-business political environment, its growing middle class and its demographic trends that are likely to underpin strong growth for several years. Sectors of the Indian economy that the company believes will benefit most from such trends include infrastructure, financial institutions, consumer services, retail and exports. The company is not limited to investing solely in these sectors and intends to invest in other sectors as and when opportunities arise.

The company utilizes, and expects to benefit significantly from, the experience and expertise of Fairfax and the Portfolio Advisor.

The company employs a conservative, fundamental value-based approach to identifying and investing in high quality public and private Indian businesses. This approach is designed to compound book value per share over the long term. The company will seek attractive risk-adjusted returns, but will at all times seek downside protection and attempt to minimize the loss of capital.

Investment Restrictions

The company will not make an Indian Investment if, after giving effect to such investment, the total invested amount of such investment would exceed 20.0% of the company's total assets at the time of the investment; provided, however, that the company is permitted to complete up to two Indian Investments where, after giving effect to each such investment, the total invested amount of each such investment would be less than or equal to 25.0% of the company's total assets (the "Investment Concentration Restriction"). The company's Investment Concentration Restriction decreased at June 30, 2018 from December 31, 2017 principally as a result of net unrealized foreign currency translation losses and the settlement of the payable for rights issue, partially offset by the incremental net proceeds received on the $550.0 million term loan. Indian Investments may be financed through equity or debt offerings as part of the company's objective to reduce its cost of capital and provide returns to common shareholders.

The company intends to continue to make multiple different investments as part of its prudent investment strategy. At June 30, 2018 the company determined that it was in compliance with the Investment Concentration Restriction.

Indian Investments

Cautionary Statement Regarding Financial Information of Significant Indian Investments

Fairfax India has agreed to voluntarily provide within the MD&A, summarized financial information prepared in accordance with IFRS for all of its Indian Investments for which it had previously filed a business acquisition report in accordance with section 8.2 of *National Instrument 51-102 Continuous Disclosure Obligations.* National Collateral Management Services Limited, IIFL Holdings Limited, Sanmar Chemicals Group and Bangalore International Airport Limited (collectively, "Significant Indian Investments"), the company's Significant Indian Investments for which it had previously filed business acquisition reports, previously prepared their financial statements in accordance with Indian Generally Accepted Accounting Principles ("Indian GAAP"). Effective April 1, 2017 the company's Significant Indian Investments have adopted Indian Accounting Standards ("Ind AS"). Ind AS are based on and substantially converged with IFRS as issued by the IASB. Fairfax India is limited with respect to the amount of independent verification it is able to perform on the Significant Indian Investments' financial statements. The unaudited summarized financial information contained in this MD&A was prepared exclusively for Fairfax India. Such unaudited financial information is the responsibility of the respective managements and has been prepared by them using recognition, measurement and presentation principles consistent with IFRS as issued by the IASB, and provided to the company in Indian rupees.

The company's Significant Indian Investments' fiscal year ends on March 31. Summarized financial information of the company's Significant Indian Investments has generally been provided for the periods subsequent to the company's investment and to the extent that the most recent interim financial information is available to the company's management.

Significant Indian Investments' summarized financial information should be read in conjunction with Fairfax India's historical consolidated financial statements including the notes thereto and the related MD&A as well as Fairfax India's other public filings.

Fairfax India has no knowledge that would indicate that the Significant Indian Investments' summarized financial information contained herein requires material modifications. However, readers are cautioned that the Significant Indian Investments' summarized financial information contained in the MD&A may not be appropriate for their purposes.

Summary of Indian Investments

The table below provides a summary of the company's Indian Investments:

		June 30, 2018				December 31, 2017			
	Date Acquired	Ownership %	Cost	Fair value	Net change	Ownership %	Cost	Fair value	Net change
Public Indian Investments:									
IIFL	December 2015 and February 2017	26.5%	256,976	827,698	570,722	26.6%	256,976	888,485	631,509

(1) The merger of Fairchem and Privi resulted in the reallocation of the investment in Privi from Private Indian Investments to the Public Indian Investment in Fairchem.

Public Indian Investments

The fair values of Fairfax India's Public Indian Investments, whose shares are listed on both the BSE (formerly known as Bombay Stock Exchange Limited) and the National Stock Exchange of India ("NSE of India"), are determined using the bid prices of those investments (without adjustments or discounts) at the balance sheet date.

Investment in IIFL Holdings Limited

Business Overview

IIFL Holdings Limited ("IIFL") was incorporated in 1995 and is a publicly traded, diversified financial services holding company located in Mumbai, India with principal lines of business in wealth management, capital markets and other activities (comprised of retail investment brokerage, institutional equities, investment banking and financial products distribution) and a non-banking finance company. IIFL serves over 5 million customers from 2,500 service locations and over 1,300 branches across India. It also has an international presence, with offices in Toronto, New York, London, Geneva, Singapore, Hong Kong, Dubai and Mauritius.

Transaction Description

In December 2015 and February 2017 the company acquired 84,641,445 common shares of IIFL (representing a 26.9% equity interest) for aggregate cash consideration of $276,734 (approximately 18.5 billion Indian rupees). In October 2017 IIFL spun-off its wholly-owned subsidiary 5Paisa Digital Undertaking through the formation of a new public company, 5paisa Capital Limited ("5paisa") in a non-cash transaction. The distribution of 5paisa to IIFL shareholders was characterized as a return of capital which resulted in Fairfax India recording the initial cost of its investment in 5paisa at its fair value of $19,758 with a corresponding amount recorded as a reduction of the cost of the company's investment in IIFL. Additional details on the 5paisa spin-off transaction are disclosed under the sub-heading Investment in 5paisa Capital Limited within the Public Indian Investments section of this MD&A.

At June 30, 2018 the company held an aggregate of 84,641,445 common shares of IIFL representing a 26.5% equity interest (December 31, 2017 - 26.6%).

Key Business Drivers, Events and Risks

IIFL's key business drivers relate to its ability to grow and penetrate the financial services industry in India, particularly in the areas of lending and wealth management.

On January 31, 2018 IIFL's board of directors approved a draft plan to reorganize IIFL into three listed entities (the "reorganization") consisting of IIFL Finance (currently known as IIFL Holdings Limited comprised of the loans and mortgages businesses), IIFL Wealth (comprised of the wealth, asset management and alternative investment fund businesses) and IIFL Securities (comprised of all other IIFL businesses including investment brokerage, distribution and investment banking). Shareholders of IIFL will receive seven common shares of IIFL Securities and one common share of IIFL Wealth for every seven IIFL shares held. IIFL Holdings Limited will be renamed IIFL Finance, and shares of IIFL Finance, IIFL Wealth and IIFL Securities will be listed on the BSE and NSE of India. The reorganization is anticipated to be completed in late 2018 to early 2019, subject to customary closing conditions and applicable regulatory approvals.

Valuation and Interim Consolidated Financial Statement Impact

At June 30, 2018 the fair value of the company's investment in IIFL was $827,698 (December 31, 2017 - $888,485) with the changes in fair value for the second quarters and first six months of 2018 and 2017 presented in the tables at the outset of the Indian Investments section of this MD&A. IIFL's share price at June 30, 2018 remained flat at 670.00 Indian rupees per share in comparison to December 31, 2017.

For the second quarter and first six months of 2018 the consolidated statements of earnings included dividend income earned from the investment in IIFL of nil and $6,575 (2017 - nil and $4,625).

IIFL's Summarized Financial Information

The company's fiscal year ends on December 31 and IIFL's fiscal year ends on March 31. Summarized below are IIFL's balance sheets at March 31, 2018 and 2017.

Balance Sheets
(*unaudited - US$ thousands****)***

	March 31, 2018(1)	March 31, 2017(1)
Current assets	**3,434,481**	2,824,628
Non-current assets	**3,788,659**	2,422,752
Current liabilities	**3,681,390**	2,332,577
Non-current liabilities	**2,524,647**	2,039,377
Shareholders' equity	**1,017,103**	875,426

(1) The net assets of IIFL were translated at March 31, 2018 at $1 U.S. dollar = 65.22 Indian rupees and at March 31, 2017 at $1 U.S. dollar = 64.94 Indian rupees. The exchange rates used were the spot rates prevailing on those respective dates.

Current assets and non-current assets increased primarily as a result of the growth in IIFL's Finance's line of business reflecting increased home loans where the fastest growing segment is the affordable home loan segment, loans against property and construction and real estate loans. IIFL Finance's asset quality remained stable with gross and net non-performing assets both improving to 1.7% and 0.8% of IIFL Finance's loans at March 31, 2018. Current liabilities increased primarily due to a change in the mix of the maturity profile of IIFL's borrowings as a result of long term bank loans maturing in March 2018 that were renewed with short term loans. Non-current liabilities increased primarily due to an increase in long term interest bearing loans and borrowings to support the IIFL Finance's NBFC line of business. The availability of funds has considerably tightened in India over the first quarter of 2018 resulting in an increase in the cost of borrowing which IIFL has been able to mitigate by implementing a strategy to borrow loans from various lenders with a longer maturity profile at fixed rates, which ultimately will be reflected in higher rates being charged to home loan customers.

Summarized below are IIFL's statements of earnings for the years ended March 31, 2018 and 2017.

Statements of Earnings
(*unaudited - US$ thousands****)***

	Year ended March 31, 2018 (1)	Year ended March 31, 2017 (1)
Revenue	**1,042,279**	736,127
Earnings before income taxes	**262,547**	182,785
Net earnings	**182,946**	121,123

(1) Amounts for the years ended March 31, 2018 and 2017 were translated into US$ using the average exchange rates of $1 U.S. dollar = 64.47 Indian rupees and $1 U.S. dollar = 67.04 Indian rupees prevailing during those periods.

IIFL's revenue and net earnings increased due to growth in each of IIFL's lines of business reflecting sustained economic growth in India and a trend in increased personal savings that benefited IIFL Wealth and IIFL Securities, while the decline in market share of the public sector banks attributed to stronger net earnings in IIFL Finance's NBFC. IIFL's management continues to focus on reducing operating costs to achieve better economies of scale and leveraging existing infrastructure to offer complementary products across multiple lines of business.

Investment in Fairchem Speciality Limited

Business Overview

In March 2017 Fairchem Speciality Limited ("Fairchem") and Privi Organics Limited ("Privi") were merged with the surviving entity continuing as Fairchem (the "Merger") and with no changes to management of the underlying companies.

Fairchem

Fairchem was incorporated in 1985 and publicly listed its shares on the BSE in 1995 and NSE of India in 2015. Fairchem is a specialty chemical manufacturer located in Ahmedabad, India. Fairchem manufactures oleochemicals used in the paints, inks and adhesives industries, as well as intermediate nutraceutical and health products. It has developed an in-house technology that uses machinery designed and manufactured by leading European companies to physically separate and convert waste generated during the production of soya, sunflower, corn and cotton oils into valuable nutraceutical and fatty acids.

Privi

Privi, founded in 1992, is a supplier of aroma chemicals to the fragrance industry and is located in Mumbai, India. Privi's world-class products are the result of its very strong research and development team that has proven expertise in developing new products, customizing aromas per customer specifications, scaling up products from basic research to commercial scale, and designing process improvements to drive quality and cost optimization.

Transaction Description

In February 2016 Fairfax India acquired a 44.7% equity interest in Fairchem for cash consideration of $19,409 (approximately 1.3 billion Indian rupees) and in August 2016 acquired a 50.8% equity interest in Privi for cash consideration of $54,975 (approximately 3.7 billion Indian rupees). In March 2017 Fairchem and Privi were merged with the surviving entity continuing as Fairchem.

At June 30, 2018 the company held 18,307,318 common shares and 738,760 compulsorily convertible preference shares ("CCPS") representing a 48.8% equity interest in Fairchem on a fully diluted basis (or a 48.7% equity interest excluding the impact of the CCPS) (December 31, 2017 - 48.8% and 48.7% respectively).

Key Business Drivers, Events and Risks

Fairchem's key business drivers relate to the success of its oleochemicals business and vertical integration into value added products, such as fatty alcohols and natural vitamin E. As environmental concerns increase, the demand for sustainable and biodegradable oleochemicals used in lubricants, paper printing, paints and coatings, and animals feed industries has been experiencing strong growth in recent years.

India is the one of the largest consumers of soft oils which provides Fairchem with a competitive advantage by having easy access to the raw materials that it uses in its manufacturing processes. The close proximity to raw materials available in Asia (India, Malaysia and Indonesia) has resulted in a shift of oleochemical production away from the U.S. and Europe. Lower cost of raw materials and efficient manufacturing processes have provided Fairchem with certain competitive advantages in comparison to its global peers. Fairchem has a strong market presence for some of its products, with little or no direct competition, and is considered to produce a superior quality product in comparison to its competitors in China. Fairchem faces some exposure to limited availability of raw materials (primarily soya oils) which are used in its manufacturing processes which may impact its ability to meet higher demand.

Privi’s key business drivers relate to its ability to: (i) develop, manufacture and supply additional (newer) aroma chemicals to existing customers; (ii) create value added products from the by-products of manufacturing aroma chemicals; and (iii) strengthen margins by increasing vertical integration capacities.

On April 26, 2018 a fire broke out at one of Privi’s aromatic manufacturing chemical plants located in Mahad, India. The fire was serious in nature but was isolated to one section of the plant and resulted in no casualties. On May 25, 2018, in a record amount of time, Privi was able to commence operations in the unaffected portion of the plant and began to refurbish the operations impacted by the fire, anticipating they will reach full capacity within nine to twelve months. Privi continues to work with its insurance company as they undertake an assessment of the damages.

Valuation and Interim Consolidated Financial Statement Impact

At June 30, 2018 the fair value of the company's investment in Fairchem was $101,895 comprised of common shares (fair value of $97,943) and CCPS (fair value of $3,952). At December 31, 2017 the fair value of the company's investment in Fairchem was $149,200 comprised of common shares (fair value of $143,413) and CCPS (fair value of $5,787). The fair value of the company's investment in Fairchem at June 30, 2018 and December 31, 2017 was determined by multiplying the bid price of the publicly traded Fairchem shares by the number of Fairchem shares owned by the company (inclusive of the common shares and CCPS). The changes in fair value of the company's investment in Fairchem for the second quarters and first six months of 2018 and 2017 are presented in the tables at the outset of the Indian Investments section of this MD&A. Fairchem's share price decreased by 26.7% from 500.00 Indian rupees per share at December 31, 2017 to 366.55 Indian rupees per share at June 30, 2018.

Investment in 5paisa Capital Limited

Business Overview

5paisa Capital Limited ("5paisa") is a publicly traded online financial services provider with a do-it-yourself based investment brokerage model where the customer can execute investment transactions for a low brokerage fee. 5paisa is engaged in providing an online technology platform through Internet terminals and mobile applications for trading securities on the BSE and the NSE of India.

Transaction Description

In October 2017 IIFL spun-off its wholly-owned subsidiary 5Paisa Digital Undertaking through the formation of a new public company, 5paisa Capital Limited, listed on the BSE and the NSE of India effective November 16, 2017. This non-cash transaction resulted in Fairfax India receiving one new common share of 5paisa for every 25 common shares of IIFL held for a total of 3,385,657 common shares of 5paisa with a fair value of $19,758. The distribution of 5paisa to IIFL shareholders was characterized as a return of capital which resulted in Fairfax India recording the initial cost of its investment in 5paisa at its fair value of $19,758 with a corresponding amount recorded as a reduction of the cost of the company's investment in IIFL.

At June 30, 2018 the company held an aggregate of 3,385,657 common shares of 5paisa representing a 26.6% equity interest (December 31, 2017 - 26.6%).

Key Business Drivers, Events and Risks

5paisa's key business driver relates to its ability to provide a digital method of trading in securities, which is emerging as a new segment with the potential to achieve critical mass and grow in the near future with the spread of the Internet, mobile penetration, telecommunication and data services throughout India. 5paisa's ability to acquire, service and grow the new emerging do-it-yourself customer segment provides its customers with lower costs for various financial products, enabling investors to invest seamlessly, on their own, from anywhere in the world.

Valuation and Interim Consolidated Financial Statement Impact

At June 30, 2018 the fair value of the company's investment in 5paisa was $15,813 (December 31, 2017 - $19,958) with the changes in fair value for the second quarter and first six months of 2018 presented in the tables disclosed at the outset of the Indian Investments section of this MD&A. 5paisa's share price decreased by 15.0% from 376.25 Indian rupees per share at December 31, 2017 to 320.00 Indian rupees per share at June 30, 2018.

Private Indian Investments

Cautionary Statement Regarding the Valuation of Private Indian Investments

In the absence of an active market for the company's Private Indian Investments, fair values for these investments are determined by management using industry acceptable valuation methodologies after considering the history and nature of the business, operating results and financial conditions, outlook and prospects, general economic, industry and market conditions, contractual rights relating to the investment, public market comparables (if available) and, where applicable, other pertinent considerations. The process of valuing investments for which no active market exists is inevitably based on inherent uncertainties and the resulting values may differ from values that would have been used had an active market existed. The amounts at which the company's Private Indian Investments could be disposed of may differ from the fair values assigned and those differences may be material.

Investment in Bangalore International Airport Limited

Business Overview

Bangalore International Airport Limited ("BIAL"), is a private company located in Bengaluru, India. BIAL, under a concession agreement with the Government of India until the year 2038 (with the right to extend the agreement for an additional 30 years), has the exclusive rights to carry out the development, design, financing, construction, commissioning, maintenance, operation and management of the Kempegowda International Airport Bengaluru (“KIAB”) through a public-private partnership (the "concession agreement"). KIAB is the first greenfield airport in India built to the highest level of international standards through a public-private partnership. BIAL's principal lines of business are aeronautical and non-aeronautical revenue from the airport, and other non-airport related revenue which includes the five-star Taj hotel and real estate monetization.

Transaction Description

During 2017 Fairfax India had invested aggregate cash consideration of $585,591 (approximately 38.1 billion Indian rupees) (inclusive of $74,202 of costs incurred, approximately 4.8 billion Indian rupees) for a 48.0% equity interest in BIAL through the following transactions: (i) March 24, 2017 the company acquired a 38.0% equity interest in BIAL for cash consideration of $385,498 (approximately 25.2 billion Indian rupees); and (ii) July 13, 2017 acquired an additional 10.0% equity interest in BIAL for cash consideration of $200,093 (12.9 billion Indian rupees) which the company determined included $74,202 of consideration in excess of the fair value of those additional shares acquired.

On May 16, 2018 Fairfax India acquired an additional 6.0% equity interest in BIAL from Siemens Project Ventures GmbH ("Siemens") for cash consideration of $67,391 (approximately 4.6 billion Indian rupees). Upon completion of this transaction, the company had invested aggregate cash consideration of $652,982 (approximately 42.7 billion Indian rupees) (inclusive of $74,202 of costs incurred, approximately 4.8 billion Indian rupees) for a 54.0% equity interest in BIAL.

Key Business Drivers, Events and Risks

KIAB is the busiest airport in South India, the third largest in the country, and was rated the fastest growing airport globally during 2017 by FlightGlobal, an international aviation data and analytics company. The airport handled approximately 26.9 million passengers during the year ended March 31, 2018 representing growth in overall traffic of 17.6% compared to the year ended March 31, 2017.

Plans are in place to expand the capacity of the airport, which include constructing a second runway and an additional terminal building, and expanding the related infrastructure. Land preparation and construction for the second runway are underway, with estimated completion by September 2019. Design approvals for the additional terminal building commenced in 2017 and will be constructed in two phases; the first phase will have the capacity to handle 25 million passengers per annum (estimated to be operational by March 31, 2021), while the second phase of the project will add capacity for another 20 million passengers per annum. The combined capacity of the existing and additional terminal will be approximately 70 million passengers per annum.

On August 4, 2017 BIAL announced that KIAB would become the first airport in the country to have a helicopter taxi service. Services commenced on March 5, 2018, initially operating between KIAB and Electronics City (one of India's largest electronic industrial parks and an information technology hub in Bengaluru, India).

On February 27, 2018 BIAL was awarded second place for the 2017 Best Airport Service Quality ("ASQ") by size by the Airports Council International ("ACI"). The annual ASQ awards recognize and rewards the best airports in the world according to ACI's ASQ Passenger Satisfaction Survey, the world's benchmark measure of airport excellence, representing the highest possible accolade for airport operators. On July 21, 2018 BIAL scored the highest rating (4.67 out of 5) amongst participating international airports in the first ever ASQ Arrival Survey. The ASQ Arrival Survey focused on the experience of arriving passengers and measured passengers' views on five key areas that were comprised of disembarkation, immigration, baggage claim, customs and airport infrastructure. ACI is the only global trade representative of international airports.

On January 20, 2005, subsequently amended on June 20, 2006, BIAL had entered into a State Support Agreement for the development, construction, operation and maintenance of the airport with the Government of Karnataka, whereby the Government of Karnataka, subject to other terms, would make available to BIAL over the project period, approximately $48.6 million at current exchange rates (approximately 3.3 billion Indian rupees) in the form of an interest free loan. The proceeds from the interest free loan were to be used exclusively to finance the existing terminal building and were due April 30, 2028, repayable in twenty equal half-yearly installments commencing April 30, 2018. On June 29, 2018 the Government of Karnataka approved a 10 year deferral on the interest free loan, and amended the loan to enable BIAL to utilize the funds towards expansion of the additional terminal building.

Valuation and Interim Consolidated Financial Statement Impact

At June 30, 2018 the company estimated the fair value of its investment in BIAL using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 10.7% to 12.3% and a long term growth rate of 3.0% (December 31, 2017 - 10.4% to 11.7% and 3.0%, respectively) for BIAL's two business units and the estimated fair value of the monetizable leasehold land (approximately 460 acres) based on third party valuations with an assumed 20.0% discount factor (December 31, 2017 - 20.0%) for the leasehold nature of the asset. Free cash flow projections were based on EBITDA estimates derived from financial information for BIAL’s two business units prepared in the first quarter of 2018 by BIAL’s management. Discount rates were based on the company’s assessment of risk premiums to the appropriate risk-free rate of the economic environment in which BIAL operates. At June 30, 2018 the company’s internal valuation model indicated that the fair value of the company's investment in BIAL was $643,783 (December 31, 2017 - $608,288) with the changes in fair value of the company's investment in BIAL for the second quarters and first six months of 2018 and 2017 presented in the tables at the outset of the Indian Investments section of this MD&A. The net change in unrealized gains of $8,175 and $10,849 from the company's investment in BIAL for the second quarter and first six months of 2018 was primarily driven by the delay of projected capital expenditures in the discounted cash flow analysis relating to timing of major projects, increased projected revenue from the expansion of the hotel, and the additional 6.0% equity interest acquired in the second quarter of 2018.

BIAL's Summarized Financial Information

The company's fiscal year ends on December 31 and BIAL's fiscal year ends on March 31. Summarized below are BIAL's balance sheets at March 31, 2018 and 2017.

Balance Sheets
(**US$ thousands**)

	March 31, 2018(1)	March 31, 2017(1)
Current assets	**147,942**	113,252
Non-current assets	**718,517**	643,520
Current liabilities	**73,195**	59,752
Non-current liabilities	**417,315**	435,743
Shareholders' equity	**375,949**	261,277

(1) The net assets of BIAL were translated at March 31, 2018 at $1 U.S. dollar = 65.22 Indian rupees and at March 31, 2017 at $1 U.S. dollar = 64.94 Indian rupees. The exchange rates used were the spot rates prevailing on those respective dates.

Current assets increased primarily due to increased trade receivables and bank deposits (original maturities greater than three months) as a result of passenger growth at the airport. Non-current assets increased principally as a result of ongoing capital expenditures required to expand the capacity of the airport as described in the Key Business Drivers, Events and Risks section and increased deferred income tax assets related to increased Minimum Alternative Tax credits. Current liabilities increased primarily due to increases in payables to creditors related to the capital expenditures and includes the current portion of loans and borrowings and the concession fee payable. Non-current liabilities decreased as a result of scheduled repayments on loans and borrowings.

Summarized below are BIAL's statements of earnings for the years ended March 31, 2018 and 2017.

Statements of Earnings
(**US$ thousands**)

	Year ended March 31, 2018[(1)]	Year ended March 31, 2017[(1)]
Revenue	**244,469**	204,427
Earnings before income taxes	**111,625**	83,865
Net earnings	**124,081**	81,419

(1) Amounts for the years ended March 31, 2018 and 2017 were translated into US$ using the average exchange rates of $1 U.S. dollar = 64.47 Indian rupees and $1 U.S. dollar = 67.04 Indian rupees prevailing during those periods.

The increase in revenue related to the growth of aeronautical and non-aeronautical revenue as a result of increased domestic passenger traffic, and increased non-airport revenues following the opening of the Taj hotel on September 30, 2016. Earnings before income taxes increased primarily due to increased revenues as noted above and lower interest expense as a result of loan repayments, partially offset by increased employee costs, increased depreciation on capital asset additions, and expenses related to the operations of the Taj hotel. Net earnings increased as a result of the increases described above and a one-time deferred income tax recovery of approximately $8.0 million (approximately 515 million Indian rupees) recorded in March 2018 related to the tax effect on the management's revision of the useful lives on BIAL's property, plant and equipment. The revision of the useful lives on property, plant and equipment will be effective on April 1, 2018 and BIAL will incur a one-time depreciation charge of approximately $22.2 million (approximately 1.5 billion Indian rupees) in their first quarter ended June 30, 2018 statement of earnings.

Investment in National Collateral Management Services Limited

Business Overview

National Collateral Management Services Limited ("NCML"), a private company, is a leading private agricultural commodities company located in Gurugram, India operating for over 13 years in the agriculture value chain and offering end-to-end solutions in grain procurement, testing, storage and collateral management. NCML was promoted by a consortium of banks, cooperatives and the National Commodity and Derivatives Exchange Limited (“NCDEX”) in 2004 as a warehousing and collateral management company to support commodity trading on NCDEX and has since evolved into a significant player in India. NCML's principal lines of business are warehousing and collateral management, supply chain management, non-banking finance company ("NBFC"), and the silo projects.

Transaction Description

In the third quarter of 2015 and August 2017 Fairfax India acquired an 89.5% equity interest in NCML for cash consideration of $174,318 (approximately 11.3 billion Indian rupees). The payable for rights issue at December 31, 2017 related to Fairfax India's participation in NCML's rights issue that was settled in January 2018.

Key Business Drivers, Events and Risks

NCML's key business drivers relate to its ability to achieve long term modernization of its grain storage facilities, the development of its NBFC, the expansion of its supply chain management line of business, and the successful construction of the silos under the concession agreement.

The silo projects, which are expected to be completed by early 2019, will be financed through debt and common equity. The silo projects are comprised of 11 silos that will be constructed under a design, build, finance, own and operate model and 2 silos that will be constructed under a design, build, finance, operate and transfer model, with all 13 silos being constructed for the exclusive use by the Food Corporation of India.

Valuation and Interim Consolidated Financial Statement Impact

At June 30, 2018 the company estimated the fair value of its investment in NCML using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 12.1% to 20.9% and long term growth rates ranging from 2.4% to 6.0% (December 31, 2017 - 12.0% to 19.9% and 2.4% to 6.0%, respectively). Free cash flow projections were based on EBITDA estimates derived from financial information for NCML's business units prepared in the second quarter of 2018 by NCML's management. Discount rates were based on the company's assessment of risk premiums to the appropriate risk-free rate of the economic environment in which NCML operates. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in NCML was $170,049 (December 31, 2017 - $179,054) with the changes in fair value of the company's investment in NCML for the second quarters and first six months of 2018 and 2017 presented in the tables at the outset of the Indian Investments section of this MD&A. The net change in unrealized gains of $1,681 and $3,385 from the company's investment in NCML for the second quarter and first six months of 2018 was primarily related to the increased growth in NCML's supply chain management line of business.

NCML's Summarized Financial Information

The company's fiscal year ends on December 31 and NCML's fiscal year ends on March 31. Summarized below are NCML's balance sheets at June 30, 2018 and March 31, 2018.

Balance Sheets
(*unaudited - US$ thousands****)***

	June 30, 2018 [(1)]	March 31, 2018[(1)]
Current assets	**180,717**	199,657
Non-current assets	**94,880**	93,057
Current liabilities	**144,631**	155,776
Non-current liabilities	**21,831**	23,909
Shareholders' equity	**109,135**	113,029

(1) The net assets of NCML were translated at June 30, 2018 at $1 U.S. dollar = 68.52 Indian rupees and at March 31, 2018 at $1 U.S. dollar = 65.22 Indian rupees. The exchange rates used were the spot rates prevailing on those respective dates.

Current assets decreased primarily reflecting lower advances in NCML's NBFC line of business, decreased trade receivables as a result of improved collection processes, partially offset by increased cash and inventory due to growth in the supply chain management line of business. Non-current assets modestly increased principally related to increases in property, plant and equipment as a result of land acquisitions for the silo projects. Current liabilities decreased primarily reflecting decreases in short term loans and borrowings by NCML's NBFC line of business, partially offset by increased working capital levels in the supply chain management line of business. Non-current liabilities decreased as a result of scheduled repayments on loans and borrowings.

Summarized below are NCML's statements of earnings for the three months ended June 30, 2018 and 2017.

Statements of Earnings
(*unaudited - US$ thousands****)***

	Three months ended June 30, 2018[(1)]	Three months ended June 30, 2017[(1)]
Revenue	**46,837**	36,341
Earnings (loss) before income taxes	**1,476**	(888)
Net earnings	**1,425**	1,556

(1) Amounts for the three months ended June 30, 2018 and 2017 were translated into US$ using the average exchange rates of $1 U.S. dollar = 66.98 Indian rupees and $1 U.S. dollar = 64.47 Indian rupees prevailing during those periods, respectively.

Revenue increased primarily reflecting growth in the supply chain management and warehousing lines of business as a result of a strong monsoon season, partially offset by a decrease in the collateral management line of business due to NCML's management decision to exit higher risk segments that have been negatively impacting the quality of the commodities. Earnings before income taxes increased principally as a result of decreased interest expense from short-term borrowings by the NBFC line of business and a one-time charge for impairment of certain receivables in the comparable period. Net earnings decreased primarily as a result of a deferred income tax recovery in the comparable period, partially offset by the increase in earnings before income taxes as noted above.

Investment in Sanmar Chemicals Group

Business Overview

Sanmar Chemicals Group ("Sanmar"), a private company, is one of the largest suspension polyvinyl chloride ("PVC") manufacturers in India, headquartered in Chennai, India with an operational presence in India and Egypt. Sanmar has an installed capacity of approximately 366,000 metric tons per annum in India and is in the process of expanding its PVC capacity in Egypt from 200,000 metric tons per annum to 400,000 metric tons per annum. Once the expansion is completed, Sanmar will have a total PVC capacity of over 766,000 metric tons per annum.

Sanmar's principal lines of business consist of: Chemplast, the second largest suspension PVC manufacturer and the largest specialty PVC manufacturer in India; Sanmar Egypt*,* the largest Indian investor in Egypt's chemical business and the largest caustic soda and PVC manufacturer in Egypt; Specialty Chemicals*,* a business engaged in the manufacturing and marketing of phytochemicals and organic chemicals; and Kem One Chemplast, a partnership that will manufacture chlorinated polyvinyl chloride ("CPVC") in India.

Transaction Description

In April 2016 Fairfax India invested $250,000 in Sanmar comprised of $1,000 in common shares (representing a 30.0% equity interest) and $249,000 in bonds, and in September 2016 invested an additional $50,000 in Sanmar bonds. Both tranches of Sanmar bonds mature on April 22, 2023 (7 years from the date of issuance of the first tranche), subject to earlier redemption at the option of Sanmar under certain circumstances. In lieu of cash, the coupon payment on the bond is payable in kind in the form of additional Sanmar bonds over the life of the financial instrument. A redemption premium may also be payable in kind to the company.

Key Business Drivers, Events and Risks

India continues to be a PVC deficit market with approximately 50% of the demand being met through imports. Egypt and Turkey, which are manufacturing hubs for exports to Europe, currently have a demand gap for PVC of approximately 1,000 kilotons per annum which is being met by imports from the U.S. and Asia.

Sanmar's key business drivers relate to its ability to execute its plan to increase PVC manufacturing capacity in Egypt and India that should align with the growing demand for PVC in North Africa, Middle East and India and to improve the overall capacity utilization at all of its PVC production facilities. It is very likely that Sanmar will incur losses until it can complete its manufacturing capacity expansion project in Egypt and sales of PVC grow to match the increase in capacity.

Chemplast and Kem One (the second largest producer of PVC in Europe) have entered into an agreement to establish Kem One Chemplast, an equal joint venture that will manufacture CPVC. The joint venture and new facility will be established at a coastal location in Karaikal, Puducherry, India. The project, estimated to cost approximately $51 million at current exchange rates (approximately 3.5 billion Indian rupees), will utilize the technology of Kem One and have a capacity to manufacture 20,000 tonnes per annum of CPVC resins and will also manufacture CPVC compounds. On May 2, 2017 approval from the Government of India's Ministry of Environment, Forest and Climate Change was received, allowing the joint venture to commence construction of the new facility.

CPVC is used as a raw material to produce pipes and fittings for supplying water that are required to have a high resistance to heat, pressure and chemicals. More recently in India, there has been a switch from metal pipes to CPVC pipes in building construction combined with an overall increase in construction demand. The Kem One Chemplast joint venture is well positioned to benefit from the rapidly growing demand for CPVC in India that is currently being met through imports.

Valuation and Interim Consolidated Financial Statement Impact

Sanmar Common Shares

At June 30, 2018 the company estimated the fair value of its investment in Sanmar common shares using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 15.8% to 22.7% and long term growth rates ranging from 2.0% to 4.0% (December 31, 2017 - 15.2% to 19.5% and 2.0% to 3.6%, respectively). Free cash flow projections were based on EBITDA estimates derived from financial information for Sanmar's four business units prepared in the first quarter of 2018 by Sanmar's management. Discount rates were based on the company's assessment of risk premiums to the appropriate risk-free rate of the economic environment in which Sanmar operates. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in Sanmar common shares was $605 (December 31, 2017 - $556) with the changes in fair value for the second quarters and first six months of 2018 and 2017 presented in the tables at the outset of Indian Investments section of this MD&A.

Sanmar Bonds

At June 30, 2018 the company estimated the fair value of its investment in Sanmar bonds using an industry accepted discounted cash flow and option pricing model that incorporated Sanmar's estimated credit spread of 8.2% (December 31, 2017 - 8.2%) and assumptions related to certain redemption options embedded in the bonds. The estimated credit spread was based on the credit spreads of a peer group of comparable companies adjusted for credit risk specific to Sanmar. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in Sanmar bonds was $321,218 (December 31, 2017 - $333,172) with the changes in fair value for the second quarters and first six months of 2018 and 2017 presented in the tables at the outset of the Indian Investments section of this MD&A. The net change in unrealized gains of $7,078 and $11,309 for the second quarter and first six months of 2018 related to the company's investment in Sanmar bonds primarily reflecting the impact of the accretion of the cost of Sanmar bonds to their redemption value after giving consideration to the issuer's credit risk and the redemption option held by the issuer prior to maturity. At June 30, 2018, Sanmar bonds were rated BBB- (December 31, 2017 - BBB-) with a stable outlook by Brickwork Ratings, an Indian rating agency.

Sanmar's Summarized Financial Information

The company's fiscal year ends on December 31 and Sanmar's fiscal year ends on March 31. Summarized below are Sanmar's balance sheets at March 31, 2018 and 2017.

Balance Sheets
(*US$ thousands****)***

	March 31, 2018[(1)]	March 31, 2017[(1)]
Current assets	**247,396**	188,559
Non-current assets	**1,386,776**	1,277,153
Current liabilities	**516,316**	385,253
Non-current liabilities	**1,386,152**	1,296,795
Shareholders' deficit	**(268,296)**	(216,336)

(1) The net assets of Sanmar were translated at March 31, 2018 at $1 U.S. dollar = 65.22 Indian rupees and at March 31, 2017 at $1 U.S. dollar = 64.94 Indian rupees. The exchange rates used were the spot rates prevailing on those respective dates.

Current assets increased primarily reflecting increases in cash and cash equivalents related to proceeds received from a $127,620 bank loan drawn by Sanmar Egypt to finance the second phase of its expansion project in Egypt that has not yet been utilized, as well as positive cash flow generated by Chemplast. Non-current assets increased primarily reflecting capital expenditures made in connection with the Phase 2 expansion at Sanmar Egypt. Current liabilities increased primarily reflecting increased funding from working capital loans. Non-current liabilities increased primarily reflecting an increase in long term loans and borrowings related to the $127,620 bank loan drawn by Sanmar Egypt.

Summarized below are Sanmar's statements of earnings for the years ended March 31, 2018 and 2017.

Statements of Earnings
(*US$ thousands****)***

	Year ended March 31, 2018[(1)]	Year ended March 31, 2017[(1)]
Revenue	**677,744**	578,512
Loss before income taxes	**(25,215)**	(74,642)
Net loss	**(53,587)**	(109,205)

(1) Amounts for the years ended March 31, 2018 and 2017 were translated into US$ using the average exchange rates of $1 U.S. dollar = 64.47 Indian rupees and $1 U.S. dollar = 67.04 Indian rupees prevailing during those periods.

Revenue increased primarily reflecting increased sales volumes at Chemplast and Sanmar Egypt as a result of improved demand for caustic soda and PVC favourably impacting prices. Loss before income taxes and net loss decreased primarily reflecting improved margins and lower interest expense as a result of refinancing high interest rate short term loans with lower rate long term loans. In the year ended March 31, 2017 revenue and loss before income taxes were negatively impacted by short term plant shutdowns at Sanmar Egypt to address temporary industrial relations and maintenance issues and a one-time compensation expense incurred at Chemplast relating to a separation package provided to certain unionized members at one of their plants.

Investment in Saurashtra Freight Private Limited

Business Overview

Saurashtra Freight Private Limited ("Saurashtra"), a private company headquartered in Mumbai, India, runs one of the largest container freight stations at Mundra port (Gujarat). Services provided by Saurashtra's container freight station includes transportation of containers to and from the port, stuffing/destuffing of containers, cargo storage, transportation of cargo to the end customer, and the storage, maintenance and repair of empty containers. In the third quarter of 2017 Saurashtra commenced operations in a new line of business, Fairfreight Lines, that focuses on new services for container shipping, offering integrated logistic solutions to its customers by providing Saurashtra's own containers to importers and exporters to transport cargo.

Transaction Description

In February 2017 Fairfax India acquired a 51.0% equity interest in Saurashtra for cash consideration of $30,018 (approximately 2.0 billion Indian rupees).

Key Business Drivers, Events and Risks

Saurashtra has the annual capacity to handle 180,000 standard twenty-foot (shipping container) equivalent units ("TEUs") and in the second quarter of 2018 handled 26,323 TEUs, implying an annualized capacity utilization of approximately 58%. Saurashtra's market share in exports and imports is approximately 13% (modest decline from 15% at March 31, 2018) and 15% (increase from 14% at March 31, 2018) at Mundra port in India, which is the second highest amongst all container freight stations ("CFS") at that port.

The CFS industry is highly fragmented with 13 CFS at Mundra port. Many of these CFS are inefficient and operating below capacity providing Saurashtra with the opportunity to benefit from industry consolidation.

Valuation and Interim Consolidated Financial Statement Impact

At June 30, 2018 the company estimated the fair value of its investment in Saurashtra using a discounted cash flow analysis based on multi-year free cash flow projections with assumed after-tax discount rates ranging from 15.0% to 15.8% and long term growth rates ranging from 4.0% to 5.0% (December 31, 2017 - 14.6% to 14.7% and 4.0% to 5.0%, respectively). Free cash flow projections were based on EBITDA estimates derived from financial information for Saurashtra's two business units prepared in the second quarter of 2018 by Saurashtra's management. The discount rates were based on the company's assessment of risk premiums to the appropriate risk-free rate of the economic environment in which Saurashtra operates. At June 30, 2018 the company's internal valuation model indicated that the fair value of the company's investment in Saurashtra was $25,278 (December 31, 2017 - $28,000) with the changes in fair value for the second quarters and first six months of 2018 and 2017 presented in the tables at the outset of the Indian Investments section of this MD&A. The net change in unrealized losses of $206 and $842 from the company's investment in Saurashtra for the second quarter and first six months of 2018 was primarily driven by lower than projected growth in Saurashtra's CFS line of business due to increased pricing competition on services relating to imports.

Investment in National Stock Exchange of India Limited

Business Overview

National Stock Exchange of India Limited ("NSE"), a private company located in Mumbai, India, operates India’s largest stock exchange. In addition to providing a platform for exchange-traded financial products in India, NSE's flagship index, Nifty50, is used extensively by investors in India and around the world as a barometer of the Indian capital markets.

Transaction Description

In the third quarter of 2016 Fairfax India acquired a 1.0% equity interest in NSE for cash consideration of $26,783 (approximately 1.8 billion Indian rupees).

Key Business Drivers, Events and Risks

India has two main stock exchanges where the majority of its trading takes place, the BSE and the NSE of India. Although most significant firms in India are listed on both the BSE and the NSE of India, NSE enjoys a dominant market share position including an 88% market share in the equity trading segment, a 100% market share in the equity derivatives trading segment and a 58% and 63% market share in the foreign exchange futures and options markets, respectively.

On December 28, 2016 NSE filed a draft prospectus with SEBI in connection with its proposed initial public offering ("IPO"). Notwithstanding that certain matters requiring resolution have delayed the process, completion of the IPO is anticipated in the fourth quarter of 2018 or early 2019. NSE will also seek to file for an overseas listing subsequent to closing of the IPO. NSE has appointed Citibank, JM Financial, Kotak Mahindra and Morgan Stanley as lead investment banks to manage the IPO.

Valuation and Interim Consolidated Financial Statement Impact

At June 30, 2018 the company's estimated fair value of its investment in NSE of $63,897 was based on a recent third party transaction completed in the first quarter of 2018, and corroborated by the company through independent evidence. At December 31, 2017 the estimated fair value of the company’s investment in NSE was based on an internal market approach valuation model. The model referenced the earnings multiple of a peer group of comparable companies that had a median earnings multiple of 26.2 times, that when applied to NSE’s earnings resulted in a fair value at December 31, 2017 of $40,452. The changes in fair value for the second quarters and first six months of 2018 and 2017 are presented in the tables at the outset of the Indian Investments section of this MD&A. The net change in unrealized gains of nil and $27,900 for the second quarter and first six months of 2018 reflected the increase in fair value in the company's investment in NSE based on the recent third party transaction completed at a fair value of 873.74 Indian rupees per share.

Proposed Investment in The Catholic Syrian Bank Ltd.

On February 20, 2018 the company entered into an agreement to acquire a 51.0% equity interest in The Catholic Syrian Bank Ltd. ("CSB") for approximately $176 million at current exchange rates (approximately 12.1 billion Indian rupees). The transaction is expected to close in the third quarter of 2018, subject to regulatory approvals and customary closing conditions. CSB, a private company, was established in 1920 and is a full-service bank offering neighborhood banking, non-resident Indian services, small-to-medium-enterprise and wholesale banking services through 421 branches and 251 automated teller machines across India. CSB is headquartered in Thrissur, India.

Results of Operations

Fairfax India's consolidated statements of earnings for the three and six months ended June 30 are shown in the following table:

	Second quarter		First six months	
	2018	2017	**2018**	2017
Income				
Interest	**5,809**	4,081	**12,572**	8,999
Dividends	**—**	—	**6,575**	4,625

Earnings (loss) before income taxes	**(69,236)**	264,913	**(40,009)**	418,904
Provision for (recovery of) income taxes	**411**	(3,682)	**813**	1,306
Net earnings (loss)	**(69,647)**	268,595	**(40,822)**	417,598
Net earnings (loss) per share	**$ (0.45)**	$ 1.82	**$ (0.27)**	$ 2.89
Net earnings (loss) per diluted share	**$ (0.45)**	$ 1.74	**$ (0.27)**	$ 2.76

Total income of $337,980 in the second quarter of 2017 decreased to a loss of $55,589 in the second quarter of 2018 principally as a result of decreased net change in unrealized gains on investments and an increase in net foreign exchange losses (primarily as a result of the weakening of the Indian rupee relative to the U.S. dollar during the second quarter of 2018). The net change in unrealized losses on investments of $39,468 in the second quarter of 2018 was principally comprised of depreciation in the company's investments in IIFL ($47,338), partially offset by appreciation in the company's investments in BIAL ($8,175) and Sanmar bonds ($7,078). The net change in unrealized gains on investments of $334,164 in the second quarter of 2017 was principally comprised of the appreciation in the company's investments in IIFL ($268,472), BIAL ($76,596), and NSE ($4,562), partially offset by depreciation in Fairchem ($21,375). Interest income of $5,809 in the second quarter of 2018 increased from $4,081 in the second quarter of 2017 principally as a result of income earned from Government of India and Indian corporate bonds.

Total income of $546,088 in the first six months of 2017 decreased to a loss of $11,464 in the first six months of 2018 principally as a result of decreased net change in unrealized gains on investments and an increase in net foreign exchange losses (primarily as a result of the weakening of the Indian rupee relative to the U.S. dollar during the first six months of 2018). The net change in unrealized gains on investments of $1,881 in the first six months of 2018 was principally comprised of appreciation in the company's investments in NSE ($27,900), Sanmar bonds ($11,309) and BIAL ($10,849), partially offset by depreciation of Fairchem ($38,703) and 5paisa ($2,900). The net change in unrealized gains on investments of $548,283 in the first six months of 2017 was principally comprised of the appreciation in the company's investments in IIFL ($428,610), BIAL ($76,596), Fairchem ($33,163) and NSE ($7,840). Interest income of $12,572 in the first six months of 2018 increased from $8,999 in the first six months of 2017 principally as a result of income earned from Government of India and Indian corporate bonds. Dividend income of $6,575 and $4,625 in the first six months of 2018 and 2017 related to dividends received from the company's investment in IIFL.

Net gains (losses) on investments and net foreign exchange gains (losses) for the second quarters and first six months of 2018 and 2017 were comprised as follows:

	Second quarter					
	2018			2017		
	Net realized gains (losses)	Net change in unrealized gains (losses)	Net gains (losses)	Net realized gains (losses)	Net change in unrealized gains	Net gains (losses)

	(25,354)	**6,772**	**(18,582)**	(1,342)	1,077	(265)

(1) In the second quarter of 2018, comprised of unrealized gains from Sanmar bonds ($7,078), partially offset by unrealized losses from Indian corporate bonds ($3,491) and Government of India bonds ($2,485). In the second quarter of 2017, comprised of unrealized gains from Government of India bonds ($1,648), Indian corporate bonds ($1,582), and Sanmar bonds ($2,764).

(2) Refer to the Indian Investments section of this MD&A for a summary of changes in the fair value of the company's Public and Private Indian Investments during the second quarters of 2018 and 2017.

(3) On June 28, 2018 the company amended, restated and replaced the $400.0 million term loan with the $550.0 million term loan and accounted for the transaction as an extinguishment of debt which resulted in a net foreign exchange realized loss of $25,407 related to the $400.0 million term loan. The net change in unrealized gain of $5,990 was comprised of the reversal of the prior quarter unrealized foreign exchange loss of $4,137 on the $400.0 million term loan and an unrealized foreign exchange gain of $1,853 on the $550.0 million term loan.

	First six months					
	2018			2017		
	Net realized gains (losses)	Net change in unrealized gains (losses)	Net gains (losses)	Net realized gains (losses)	Net change in unrealized gains (losses)	Net gains (losses)

Investments	**(529)**	**1,691**	**1,162**	(1,046)	(127)	(1,173)
Term loans	**(25,407)** (3)	**(2,674)** (3)	**(28,081)**	9,812 (3)	—	9,812
Other	**(3,196)**	**—**	**(3,196)**	546	—	546
	(28,176)	**(983)**	**(29,159)**	(16,887)	(127)	(17,014)

(1) In the first six months of 2018, comprised of unrealized gains from Sanmar bonds ($11,309), partially offset by unrealized losses from Indian corporate bonds ($3,356) and Government of India bonds ($4,047). In the first six months of 2017, comprised of unrealized gains from Sanmar bonds ($4,973), partially offset by unrealized losses from Indian corporate bonds ($451) and Government of India bonds ($4,518).

(2) Refer to the Indian Investments section of this MD&A for a summary of changes in the fair value of the company's Public and Private Indian Investments during the first six months of 2018 and 2017.

(3) In the first six months of 2018 net realized foreign exchange loss of $25,407 related to the $400.0 million term loan, and the net change in unrealized loss of $2,674 was comprised of the reversal of the prior year unrealized foreign exchange gain of $4,527 on the $400.0 million term loan, partially offset by an unrealized foreign exchange gain of $1,853 on the $550.0 million term loan. In the first six months of 2017 net realized foreign exchange gain of $9,812 related to the early settlement of a $225.0 million term loan on March 31, 2017.

(4) Primarily related to the U.S. dollar net proceeds received from the secondary offerings completed in January 2017 that were held in U.S. dollar denominated cash equivalents until the funds were partially deployed to acquire the 38.0% equity interest in BIAL.

Total expenses decreased from $73,067 in the second quarter of 2017 to $13,647 in the second quarter of 2018 primarily related to the company determining that no performance fee accrual was payable at June 30, 2018 (as the book value per share of $13.26 at June 30, 2018 was lower than the high water mark per share at that date of $14.49), partially offset by increased interest expense related to the $400.0 million term loan (entered into on July 11, 2017).

Total expenses decreased from $127,184 in the first six months of 2017 to $28,545 in the first six months of 2018 primarily as a result of the decreases described above in the preceding paragraph, partially offset by an increase in investment and advisory fees principally as a result of the increased holdings of Indian Investment.

The investment and advisory fee is calculated and payable quarterly as 0.5% of the value of undeployed capital and 1.5% of the company's common shareholders' equity less the value of undeployed capital. For the first six months of 2018 the company determined that the majority of its assets were invested in Indian Investments, which are considered deployed capital. For the second quarter and first six months of 2018, the investment and advisory fees recorded in the consolidated statements of earnings was $8,265 and $16,486 (2017 - $9,441 and $14,244).

The provision for income taxes of $411 in the second quarter of 2018 differed from the provision for income taxes that would be determined by applying the company's Canadian statutory income tax rate of 26.5% to the company's loss before income taxes primarily as a result of the unrecorded benefit of losses in Canada, the tax rate differential on losses incurred outside of Canada and foreign exchange fluctuations. The provision for income taxes of $813 in the first six months of 2018 differed from the provision for income taxes that would be determined by applying the company's Canadian statutory income tax rate of 26.5% to the company's loss before income taxes primarily as a result of foreign exchange fluctuations, the tax rate differential on losses incurred outside of Canada and the unrecorded benefit of losses in Canada.

The recovery of income taxes of $3,682 in the second quarter of 2017 differed from the provision for income taxes that would be determined by applying the company's Canadian statutory income tax rate of 26.5% to the company's earnings before income taxes primarily as a result of the tax rate differential on income earned outside of Canada, partially offset by unrecorded benefit of losses in Canada. The provision for income taxes of $1,306 in the first six months of 2017 differed from the provision for income taxes that would be determined by applying the company's Canadian statutory income tax rate of 26.5% to the company's earnings before income taxes primarily as a result of unrecorded benefit of losses in Canada and foreign exchange fluctuations, partially offset by the tax rate differential on income earned outside of Canada.

The company reported a net loss of $69,647 (a net loss of $0.45 per basic and diluted share) in the second quarter of 2018 compared to net earnings of $268,595 (net earnings of $1.82 per basic share and $1.74 per diluted share) in the second quarter of 2017. The company reported a net loss of $40,822 (a net loss of $0.27 per basic and diluted share) in the first six months of 2018 compared to net earnings of $417,598 (net earnings of $2.89 per basic share and $2.76 per diluted share) in the first six months of 2017. The year-over-year decrease in profitability in the second quarter and first six months of 2018 primarily reflected decreased net change in unrealized gains on investments, increased net foreign exchange losses, increased investment and advisory fees and interest expense, partially offset by a decreased performance fee.

Consolidated Balance Sheet Summary

The assets and liabilities reflected on the company’s consolidated balance sheet at June 30, 2018 were impacted by the settlement of the performance fee payable to Fairfax through the issuance of subordinate voting shares, completion and extinguishment of the $550.0 million and the $400.0 million term loans, an additional investment in BIAL, investments in other common stock and Indian corporate bonds, the settlement of the payable for rights issue, and the partial sale of Government of India bonds.

Total Assets

Total assets at June 30, 2018 of $2,609,516 (December 31, 2017 - $2,672,221) were principally comprised as follows:

Total cash and investments decreased to $2,599,170 at June 30, 2018 from $2,659,568 at December 31, 2017. The company’s cash and investments composition by the issuer's country of domicile was as follows:

	June 30, 2018					December 31, 2017				
	India	**U.S.**	**Canada**	**Other**	**Total**	India	U.S.	Canada	Other	Total

	1,852,023	**—**	**—**	**—**	**1,852,023**	1,913,993	—	—	—	1,913,993
Total cash and investments	**2,430,738**	**16,922**	**150,365**	**1,145**	**2,599,170**	2,608,245	27,481	20,532	3,310	2,659,568

Cash and cash equivalents increased to $125,284 at June 30, 2018 from $13,244 at December 31, 2017 principally reflecting the incremental net proceeds received from the $550.0 million term loan, partially offset by an investment in other common stock, interest payments on the $400.0 million term loan, and purchases of Indian corporate bonds.

Restricted cash of $27,222 at June 30, 2018 and $10,598 at December 31, 2017 related to requirements under the $550.0 million and $400.0 million term loans respectively for the company to set aside cash to fund interest payments.

Bonds and Common stocks - The company is actively seeking investment opportunities in India and will continue to redirect capital from its cash and cash equivalents, short term investments and bond portfolio into Indian Investments as and when those opportunities are identified. For more information about recent Indian Investments, see the Indian Investments section of this MD&A. For more information on the company's total cash and investment holdings of $2,599,170 at June 30, 2018 (December 31, 2017 - $2,659,568) see note 6 (Cash and Investments) to the interim consolidated financial statements for the three and six months ended June 30, 2018.

Interest receivable decreased to $4,543 at June 30, 2018 from $9,422 at December 31, 2017 primarily reflecting decreased interest receivable from Indian corporate bonds and decreased interest receivable from Government of India bonds primarily as a result of the weakening of the Indian rupee relative to the U.S. dollar during the first six months of 2018.

Other assets increased to $2,916 at June 30, 2018 from $133 at December 31, 2017 primarily reflecting prepaid interest expense of $2,742 related to the $550.0 million term loan.

Total Liabilities

Total liabilities at June 30, 2018 of $553,308 (December 31, 2017 - $539,757) were principally comprised as follows:

Payable to related parties decreased to $7,807 at June 30, 2018 from $122,826 at December 31, 2017 principally reflecting the settlement of the performance fee payable (relating to the first calculation period ending on December 31, 2017) to Fairfax through the issuance of subordinate voting shares of the company.

Payable for rights issue was nil at June 30, 2018 due to settlement of the remaining payable on the NCML rights issue in January 2018.

Term loans increased to $544,455 at June 30, 2018 from $400,000 at December 31, 2017 related to the incremental net proceeds received from the $550.0 million term loan, net of issue costs recognized of $5,545. Refer to note 7 (Term Loans) to the interim consolidated financial statements for the three and six months ended June 30, 2018.

Financial Risk Management

The primary goals of the company's financial risk management program are to ensure that the outcomes of activities involving elements of risk are consistent with the company's objectives and risk tolerance, while maintaining an appropriate balance between risk and reward and protecting the company's consolidated balance sheets from events that have the potential to materially impair its financial strength. There were no significant changes in the types of the company's risk exposures or the processes used by the company for managing those risk exposures at June 30, 2018 compared to those identified at December 31, 2017 and disclosed in the company's 2017 Annual Report, other than as outlined in note 11 (Financial Risk Management) to the interim consolidated financial statements for the three and six months ended June 30, 2018.

Capital Resources and Management

For a detailed analysis, refer to note 11 (Financial Risk Management, under the heading Capital Management) to the interim consolidated financial statements for the three and six months ended June 30, 2018.

Book Value per Share

Common shareholders' equity at June 30, 2018 was $2,056,208 (December 31, 2017 - $2,132,464). The book value per share at June 30, 2018 was $13.26 compared to $14.46 at December 31, 2017 representing a decrease in the first six months of 2018 of 8.3%, primarily reflecting unrealized foreign currency translation losses of $149,805 and a net loss of $40,822.

	June 30, 2018	December 31, 2017
Common shareholders' equity	**2,056,208**	2,132,464
Number of common shares effectively outstanding [1]	**155,096,316**	147,432,631
Book value per share	**$13.26**	$14.46

(1) On March 9, 2018 the company issued 7,663,685 subordinate voting shares to Fairfax calculated as the performance fee payable at December 31, 2017 of $114,437 divided by the VWAP of $14.93.

On October 4, 2017 the company announced that the TSX accepted a notice filed by Fairfax India of its intention to commence a normal course issuer bid for its subordinate voting shares by which it is authorized, until expiry of the bid on October 5, 2018, to acquire up to 3,500,000 subordinate voting shares representing at that date approximately 4.3% of the public float in respect of the subordinate voting shares. Decisions regarding any future repurchases will be based on market conditions, share price and other factors including opportunities to invest capital for growth. The Notice of Intention to Make a Normal Course Issuer Bid is available, without charge, by contacting the Corporate Secretary of the company.

There were no repurchases for cancellation of subordinate voting shares during the first six months of 2018 and 2017 under the terms of normal course issuer bids.

Liquidity

The company believes that undeployed cash and investments at June 30, 2018 provide adequate liquidity to meet the company's remaining known significant commitments in 2018, which are principally comprised of the proposed investment in CSB, investment and advisory fees, general and administration expenses and potentially corporate income taxes. The company expects to continue to receive investment income on its holdings of fixed income securities and dividends from its equity investments to supplement its cash and cash equivalents. The company has adequate working capital to support its operations.

Refer to the Related Party Transactions section of this MD&A for details on the March 9, 2018 settlement of the performance fee through the issuance of subordinate voting shares to Fairfax.

Highlights in the first six months of 2018 (with comparisons to the first six months of 2017) of major components of the statements of cash flows are presented in the following table:

	First six months	
	2018	2017
Operating activities		
Cash provided by (used in) operating activities before the undernoted	**(6,651)**	15,928
Net sales of short term investments classified as FVTPL	**11,620**	27,011
Purchases of bonds and common stocks classified as FVTPL	**(91,390)**	(515,885)
Sales of bonds and common stocks classified as FVTPL	**72,750**	78,458
Financing activities		
Net proceeds from the term loan	**544,455**	—
Repayment of the term loans	**(400,000)**	(225,000)
Net decrease (increase) in restricted cash in support of term loans	**(16,624)**	18,810
Issuance of subordinate voting shares, net of issuance costs	**—**	493,504
Increase (decrease) in cash and cash equivalents during the period	**114,160**	(107,174)

Cash provided by (used in) operating activities before the undernoted is comprised of net earnings (loss) adjusted for items not affecting cash and cash equivalents and changes in operating assets and liabilities. Cash used in operating activities before the undernoted of $6,651 in the first six months of 2018 decreased from cash provided by operating activities before the undernoted of $15,928 in the first six months of 2017, with the change principally reflecting increased investment and advisory fees paid to Fairfax and interest paid on the $400.0 million term loan, partially offset by increased interest and dividend income.

Net sales of short term investments classified as FVTPL of $11,620 in the first six months of 2018 primarily related to net sales of U.S. treasury bills to settle the remaining payable on NCML's rights issue in January 2018. Purchases of bonds and common stocks classified as FVTPL of $91,390 in the first six months of 2018 primarily related to the additional 6.0% investment in BIAL, purchases of Indian corporate bonds and investments in other common stock. Purchases of bonds and common stocks classified as FVTPL of $515,885 in the first six months of 2017 primarily related to investments in BIAL (initial 38.0% equity interest acquired) and Saurashtra, and an additional investment in IIFL. Sales of bonds and common stocks classified as FVTPL of $72,750 and $78,458 in the first six months of 2018 and 2017 related to the sales of Government of India bonds to partially finance the acquisitions of the Indian Investments noted above, and in the first six months of 2017 included the settlement of a receivable related to the pending settlement of sales of investment funds. Refer to note 14 (Supplementary Cash Flow Information) to the interim consolidated financial statements for the three and six months ended June 30, 2018 for details of purchases and sales of investments classified as FVTPL.

Net proceeds from the term loan of $544,455 and repayment of the term loans of $400,000 in the first six months of 2018 related to the completion on June 28, 2018 of the $550.0 million term loan, net of issuance costs of $5,545, and the extinguishment of the $400.0 million term loan. Repayment of the term loans of $225,000 and decrease in restricted cash in support of term loans of $18,810 in the first six months of 2017 related to the early settlement of a $225.0 million term loan on March 31, 2017 upon completion of the secondary offerings completed in January 2017. Increase in restricted cash in support of term loans in the first six months of 2018 of $16,624 principally related to the increase in the restricted cash accounts required to be maintained to fund the $550.0 million term loan's interest payments. Refer to note 7 (Term Loans) to the interim consolidated financial statements for the three and six months ended June 30, 2018 for additional details. Issuance of subordinate voting shares, net of issuance costs of $493,504 in the first six months of 2017 reflected net proceeds received from the secondary offerings completed in January 2017.

Contractual Obligations

On February 20, 2018 the company entered into an agreement to acquire a 51.0% equity interest in CSB for approximately $176 million at current exchange rates (approximately 12.1 billion Indian rupees). The transaction is expected to close in the third quarter of 2018, subject to regulatory approvals and customary closing conditions.

On June 28, 2018 the company amended, restated and replaced the existing $400.0 million term loan with the $550.0 million term loan that matures on June 27, 2019 which includes an option for the company to extend the term loan for an additional year.

Under the terms of the Investment Advisory Agreement, the company and its subsidiaries are contractually obligated to pay Fairfax an investment and advisory fee and, if applicable, a performance fee. These fees will vary based on the company's common shareholders' equity and book value per share. The investment and advisory fees recorded in the consolidated statements of earnings for the second quarter and first six months of 2018 were $8,265 and $16,486 (2017 - $9,441 and $14,244).

Refer to the Related Party Transactions section of this MD&A that follows for discussion on the performance fee accrued at December 31, 2017 (for the first calculation period) and settled on March 9, 2018. The company determined that no performance fee was payable at June 30, 2018 as the book value per share of $13.26 at June 30, 2018 was lower than the high water mark per share at that date of $14.49.

Related Party Transactions

Performance Fee Settlement

On March 9, 2018 the company issued 7,663,685 subordinate voting shares to Fairfax calculated as the performance fee payable at December 31, 2017 of $114,437 divided by the VWAP of $14.93. Under the terms of the Investment Advisory Agreement, settlement of the performance fee will take place in subordinate voting shares of the company if the market price per share is less than two times the then book value per share. In accordance with the Investment Advisory Agreement, the number of subordinate voting shares issued was calculated based on the VWAP of $14.93. The issuance of these subordinate voting shares increased Fairfax's equity interest in Fairfax India from 30.2% at December 31, 2017 to 33.6% at March 9, 2018.

For additional details on the company's related party transactions, see note 12 (Related Party Transactions) to the interim consolidated financial statements for the three and six months ended June 30, 2018.

(1) Presented in the company's functional currency.

Income continues to be primarily comprised of net change in unrealized gains (losses) on investments, and interest and dividend income. Income was significantly impacted in the second quarter of 2018 by the net change in unrealized losses on the company's Indian Investments (principally unrealized losses in IIFL) and net foreign exchange losses, the timing of which are not predictable. Individual quarterly results have been (and may in the future be) affected by increased expenses impacted by the change in fair value of the company's Indian Investments which would result in a higher performance fee, if applicable, and investment and advisory fees.

Forward-Looking Statements

This interim report may contain forward-looking information within the meaning of applicable securities legislation. Forward-looking statements may relate to the company's or an Indian Investment's future outlook and anticipated events or results and may include statements regarding the financial position, business strategy, growth strategy, budgets, operations, financial results, taxes, dividends, plans and objectives of the company. Particularly, statements regarding future results, performance, achievements, prospects or opportunities of the company, an Indian Investment, or the Indian market are forward-looking statements. In some cases, forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate" or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might", "will" or "will be taken", "occur" or "be achieved".

Forward-looking statements are based on the opinions and estimates of the company as of the date of this interim report, and they are subject to known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements, including but not limited to the following factors: taxation of the company and its subsidiaries; substantial loss of capital; long-term nature of investment; limited number of investments; geographic concentration of investments; potential lack of diversification; financial market fluctuations; pace of completing investments; control or significant influence position risk; minority investments; ranking of company investments and structural subordination; follow-on investments; prepayments of debt investments; risks upon dispositions of investments; bridge financings; reliance on key personnel; effect of fees; performance fee could induce Fairfax to make speculative investments; operating and financial risks of investments; allocation of personnel; potential conflicts of interest; employee misconduct at the portfolio advisor could harm the company; valuation methodologies involve subjective judgments; lawsuits; foreign currency fluctuation; derivative risks; unknown merits and risks of future investments; resources could be wasted in researching investment opportunities that are not ultimately completed; investments may be made in foreign private businesses where information is unreliable or unavailable; illiquidity of investments; competitive market for investment opportunities; use of leverage; investing in leveraged businesses; regulation; investment and repatriation restrictions; aggregation restrictions; restrictions relating to debt securities; pricing guidelines; emerging markets; corporate disclosure, governance and regulatory requirements; legal and regulatory risks; volatility of the Indian securities markets; political, economic, social and other factors; governance issues risk; Indian tax law; changes in law; exposure to permanent establishment; enforcement of rights; smaller company risk; due diligence and conduct of potential investment entities; Asian economic risk; reliance on trading partners risk; natural disaster risks; government debt risk; and economic risk. Additional risks and uncertainties are described in the company's annual information form dated March 9, 2018 which is available on SEDAR at www.sedar.com and on the company's website at www.fairfaxindia.ca. These factors and assumptions are not intended to represent a complete list of the factors and assumptions that could affect the company. These factors and assumptions, however, should be considered carefully.

Although the company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The company does not undertake to update any forward-looking statements contained herein, except as required by applicable securities laws.
